In today's technology market, notebooks should not be unfamiliar to users. But is there any line that is always popular, not to be forgotten after a time of debut? 'Phenomenon' Samsung R439 will prove this.

Samsung R439.

Powerful configuration with **Intel (R) Core™ i5 Processor 450M** (2.40 GHz, 3 MB), and intelligent **Intel® Turbo Boost** technology will definitely make the **R439** PC work at a capacity and speed The maximum level is ideal.

Have you seen a laptop that boots within 3 seconds? Thanks to Samsung's exclusive **Fast Booting** technology, R439 does that. In just 3 seconds you can see your desktop everyday and then you get started quickly. In addition, with a variety of hard drive capacities ranging from 320GB to 500Gb, you are free to store music and movies to relax in your free time and enjoy the benefits of this computer.

And when you run some entertainment programs you have the opportunity to relax as well as discover the outstanding features of this R439! R439 has a 14-inch HD LED screen, with **ATI Mobility Radeon™ HD545v graphics card** (Ext. Graphic), true sharp images, to help users enjoy comfortable moments with great satisfaction for quality. Not only that, 802.11 standard wireless is the means for users to enjoy the function of boundless connection with modern life around.

Have you heard of Samsung's proprietary data recovery solution - **Samsung Recovery Solution IV** ? It's easy to backup and restore data on this stylish notebook. This process is also automatically conducted regularly during use. And this is just one of many unique features that R439 owns to make it completely different from other normal notebooks.

In addition, Noise Reduction Solution technology reduces noise making smooth operation and also helps users in

the process of concentrating and improving efficiency.

It can be said that R439 is really a ' *mobile office* ' with superior features with very competitive and reasonable prices.
