eDrawsoft MindMaster is a very popular professional thinking mapping application for Windows / Mac / Linux. With an easy-to-use interface, quite similar to the style of Microsoft Office, anyone can create different mind maps depending on the intended use in a short time. After creating the mind map, users can export the formats that Microsoft Office supports to include other documents or common formats to share on social networks, via email.

eDrawsoft MindMaster also has a high-level presentation mode with 2 ways to present mind maps. Slide presentation mode helps to split the branches of the map into slides like Powerpoint. Peer presentation mode allows users to display the entire map on the same page.

The free version of eDrawsoft MindMaster is limited, while the MindMaster Pro version costs 69 USD. MindMaster Pro is currently free for a short time.
