

# Official Foursquare is available on the iPad

Foursquare has released a support version for iPad users after a long time on the iOS platform. Accordingly this version will be optimized for iPad display.

**Foursquare has released a support version for iPad users after a long time on the iOS platform. Accordingly this version will be optimized for iPad display.**

The release of the iPad version is part of the company's plan to split into two applications earlier this year. Foursquare will focus on competing with Yelp, while Swarm will focus on checking-in. You can download it **here** !
