

On the hands of Galaxy A31: standard appearance of A series, 4 48MP cameras, 5000mAh battery

Still applying the strategy to cover all segments, Galaxy A31 is a strong upgrade compared to the A30 launched last year.

Galaxy A31 owns the standard design of the Galaxy A series, typically two representatives of Galaxy A51 / A71. Still the back is finished in glossy plastic with soft curved edges, the device feels quite comfortable and gentle grip.

The back of the Galaxy A31 uses a gradient color effect with diamond cut lines combined with laser engraving as seen on the Galaxy A51, making it difficult to see the difference from just the back. of the two machines. However, the transition effect on the Galaxy A31 does not seem to be "as strong" as its predecessor.

The front of the Galaxy A31 is a 6.4-inch screen with FullHD + resolution based on the Super AMOLED panel. However, this screen uses the Infinity-U design rather than the "punched" Infinity-O format as on its predecessors but still equipped with security technology fingerprint sensor under the screen.

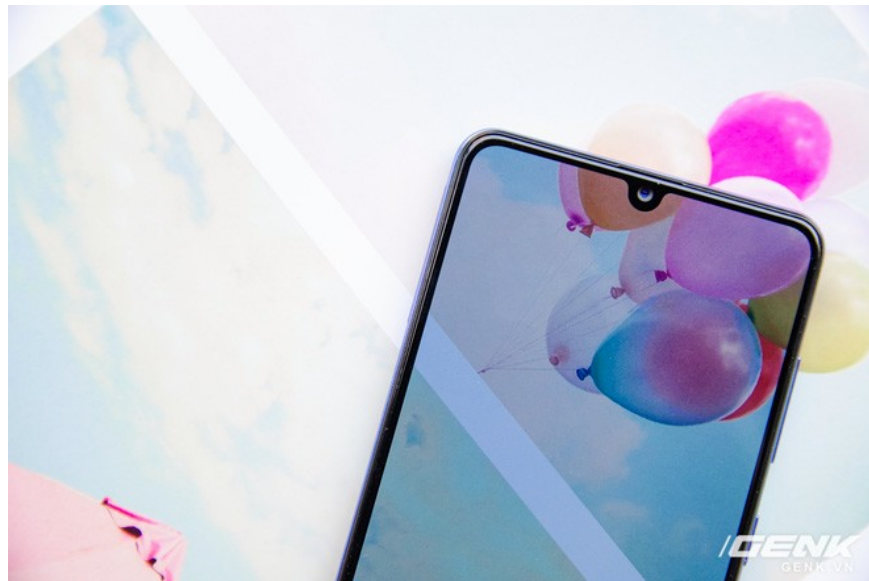

Infinity-U design for pretty thin edges .

. however, the chin of the screen is still quite thick.

Galaxy A31 rear camera cluster is designed with a large rectangle and slightly protruding from the back. These 4 cameras include: 48MP main camera, 8MP Ultra wide camera for 123 degree angle, 5MP macro camera, and 5MP depth sensor that support portrait removal. This can be considered a "standard" combo for mid-range smartphones at the moment.

Selfie camera with 20MP f / 2.0 resolution integrates smart beauty technologies.

The internal configuration of this machine is a Helio P65 processor that combines 6 GB of RAM and 128 GB of internal memory rather than the "home-grown" Exynos chip as previous models. The highlight of that configuration is that this device uses a battery capacity of 5000mAh, with fast charging technology of 15W for better experience time.

Galaxy A31 is sold with 3 color versions of Crush: White Crush Million Likes, Black Crush Hegemony, Blue Crush Fear the Heart. With a price of only 6,490,000 VND, this can be considered as a machine suitable for students who are passionate about experiencing new technology.
