

# On the night of March 12, YouTube is temporarily dead worldwide

The world's largest video sharing network has experienced service disruptions, international and Vietnamese users are directly affected.

**The world's largest video sharing network has experienced service disruptions, international and Vietnamese users are directly affected.**

At about 23:00 yesterday (March 12 ), some YouTube users were unable to use the functions on this video sharing page.

502. That's an error.

The server encountered a temporary error and could not complete your request.

Please try again in 30 seconds. That's all we know.

As noted by us, in fact for some users in Vietnam, access to **YouTube.com** homepage has a slow speed, can still watch videos from direct links but when performing searches The video will report an error.

The interruption of the service occurred just a day after Twitter had a widespread local error.

Currently the incident has gradually been overcome, the representative of YouTube has not released any official information about the incident.
