

One Piece: Haki Power Levels

Haki is a concept that refers to the strength of the characters in One Piece. Haki helps them increase attack power as well as defense against enemy attacks. Through this article, we will learn about the power levels of Haki in One Piece.

Haki is a concept that refers to the strength of the characters in One Piece. Haki helps them increase attack power as well as defense against enemy attacks. Through this article, we will learn about the power levels of Haki in One Piece.

What is Haki?

First of all, let's learn about the concept of Haki. In One Piece, each creature has a certain type of power, collectively known as Haki. Unlike our normal senses, Haki must be awakened to awaken great power without your knowledge.

In One Piece, Haki is mentioned a lot and the first time it was mentioned was through the character Blackbeard. Viewers can understand Haki better when they witness the Straw Hats participating in a training course on Rusukaina Island.

It can be simply understood that Haki is a source of hidden power that not everyone is able to awaken. Through the arduous process of training, many of our characters can master the use of Haki. However, there are also a few cases where Haki is available from an early age without training like Aisa and Otohime.

An interesting point about Haki is that it is determined by the user's will, so even if you change to another body, you still have the right to control your Haki. Not only that, Haki will become stronger and stronger if you fight against strong opponents.

Although it brings stronger fighting abilities to the user, Haki still has limitations when it causes the body to be exhausted and cannot recover immediately if abused. Haki will take a certain amount of time to recover.

Types of Haki in One Piece

In One Piece, Haki is divided into 3 types with different power levels, including:

Haki Kenbunshoku (Observation Haki)

This is Haki in which characters have a sixth sense. Through it, they can grasp their opponent's next attack and defend effectively. To have the ability to predict the near future, Charlotte Katakuri had to practice diligently. This type of Haki is divided into 3 different levels, they will become more effective thanks to the help from the devil fruit.

1. Level 1: Feel presence, emotions and intentions
2. Level 2: Mastering one's power
3. Level 3: Looking into the near future

Busoshoku Haki (Armed Haki)

This type of Haki helps the owner have invisible armor and can withstand opponents' attacks. In addition, Armament Haki also helps you become stronger. When people on lower floors fight with people on higher floors, they will suffer physical impacts on their bodies. Specifically, the body will be swollen or deformed.

This Haki has 2 levels, including:

1. Level 1: Ryuo
2. Level 2: Destroy from the inside

Haoshoku Haki (Conqueror's Haki)

Next is Conqueror's Haki, this is the rarest type of Haki in the One Piece world, only 1 person in 1 million people possesses this type of Haki. The owner of Conqueror's Haki can transmit power to weapons, attacks. Activating Conqueror's Haki will bring the ability to completely overwhelm the opponent, sometimes even making them unconscious immediately. . There are two levels of Conqueror Haki including:

1. Level 1: Tame the spirit and create an energy field
2. Level 2: Infuse attacks
