

One Punch Man season 3: What's impressive about Saitama's return?

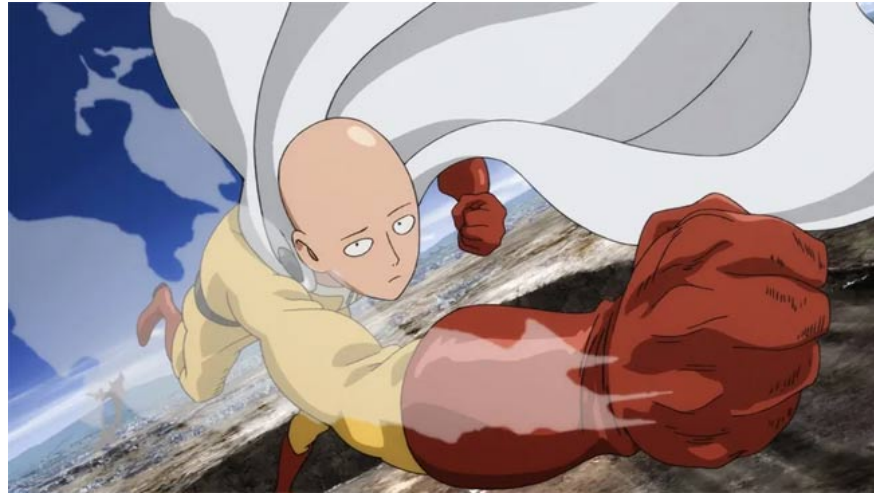

One Punch Man season 3 finally has an official release date, content, and how to watch. Here's everything you need to know about One Punch Man season 3.

One Punch Man season 3 finally has an official release date, content, and how to watch. Here's **everything** you need to know about **One Punch Man season 3**.

One Punch Man season 3 release date

One-Punch Man season 3 will premiere on October 12. Fans have spent more than half a decade waiting for One-Punch Man season 3 to air. Now, that day is just a few weeks away.

One Punch Man Season 3 Story: Which Part Will Be Adapted?

One-Punch Man Season 3 will continue the Monster Association storyline from Yusuke Murata's manga, in which the Monster Association comes to the Hero Association with a message of wanting monsters and heroes to coexist - but it quickly becomes a ruse.

Instead, the Monster Association wants an all-out war between heroes and monsters, led by Orochi and Gyoro. Also in season 2, the hero hunter Garou faces off against several other heroes who want to prove their worth to the Hero Association – including Death Gatling. This leads to a fight between Saitama's apprentice Genos and Garou, who is then saved by the Monster Association's Phoenix Man.

As usual, Saitama showed up and saved the day. He killed the monster Elder Centipede and told a desperate Genos that he needed 'power' to become a hero. So what happens next in One-Punch Man season 3? This season will start from chapter 86 of the manga.

A season of One-Punch Man usually covers about 40-50 chapters of the original work. If that's the case, **One-Punch Man season 3** will end around chapter 123 with the appearance of the character Psykos.

One Punch Man season 3 trailer

Where can I watch One Punch Man season 3?

Like the first two seasons, One-Punch Man season 3 will be streamed on Crunchyroll.
