As well as buying goods on Shopee in Vietnam, if you want to check whether the shop is reputable or not, we often rely on the rating table and the buyer's comments. In Abibaba, there is no exception, the reputation of the shop will be ranked by the shopper in order from low to high below the shop's name. The assessment includes hearts, diamonds, silver crowns, gold crowns.

Heart level: Low level of prestige

Diamond level: Average prestige level

Silver Crown level: Good reputation level

Gold Crown level: The best level of prestige

Based on that you can easily know where is the prestigious shop and where there is no brand name shop. To buy a good quality product, you should choose shops that have a high level of reliability and are judged by many diamonds or crowns.

Not all heart-rated shops are low-reputation stores, because they may be new, so they have not received many reviews from their customers. Therefore, check their founding days for a more accurate look.

At the bottom of each product, there will also be reviews and reviews of those who have purchased the item to know the quality of products, shipping and customer care services. These are the most objective opinions in a fair way that you should rely on to consider whether to buy goods or not, in order to avoid encountering troubles and troubles during the purchase process.
