

# Only this smartphone entered the list of Qualcomm support Quick Charge 4.0

Recently, Qualcomm announced a list of fast-charge Quick Charge 4.0 / 4.0 + smartphones, fast-charging fourth-generation Quick Charge technology that provides 5 hours of continuous battery use in just 5 minutes. Fast charging and good support for USB-C and USB Power Delivery standards.

Recently, Qualcomm announced a list of fast-charge Quick Charge 4.0 / 4.0 + smartphones, fast-charging fourth-generation Quick Charge technology that provides 5 hours of continuous battery use in just 5 minutes. Fast charging and good support for USB-C and USB Power Delivery standards.

What surprised everyone and with a bit of disappointment was that in this list of Qualcomm only one device was confirmed to be fully compatible with Quick Charge 4.0 / 4.0 + technology. And that smartphone is the **Razer Phone**.

After Qualcomm announced this result, many fans were wondering about ZTE Nubia Z17's absence, the ZTE smartphone that was introduced by ZTE will support fast charging technology Quick Charge 4.0. The answer so far is still a mystery.

## Introducing Qualcomm® Quick Charge™ 4

It is known that Qualcomm will expand and update more devices with Quick Charge 4.0 / 4.0 + technology.
