

Open the box, in the hands of realme GT Neo2 Dragon Ball cheap

Recently, realme has launched a Dragon Ball-themed GT Neo2 model (7 dragon balls) that is extremely attractive to both technology users and fans of this once-popular comic.

Realme GT Neo2 Dragon Ball, uses a lot of elements of the Dragon Ball manga inside and out. Currently, this extremely toxic phone model has officially been delivered to users and received very positive feedback. Let's try this super product that reminds us of childhood.

The Realme GT Neo2 Dragon Ball Edition is priced at 2699 yuan. However, what it shows is much more than that.

The Realme GT Neo2 Dragon Ball, comes with a box with everything that users need when using it. In addition to the device, users will also have cables, chargers, cases, sim sticks and manuals. The included charger is a 65W fast charger that can fill the 5000 mAh battery of the device within 36 minutes. In addition, the box also comes with an accompanying sticker and a Dragon God card.

The back of the Realme GT Neo2 Dragon Ball is a combination of the orange middle part, combined with the blue sides. Dragon Ball fans will surely recognize this as the usual Outfit of Son-Goku - the main character in Dragon Ball. The logo on Goku's chest is also shown in the position right next to the dual camera cluster of the device.

The frame of the device is also plated in blue in sync with the main theme. At the bottom edge, users will find a USB-C charging port, an external speaker and a sim slot. Meanwhile, the top edge is where a lot of recording mics are located.

The body and screen of the Realme GT Neo2 are both curved, making it more comfortable to hold the device. The buttons are arranged small and compact right next to the border for convenient operation.

The dual camera cluster on the realme GT Neo2 Dragon Ball is also the same type as the regular version. It includes a 64MP main lens, a second 8MP ultra-wide-angle camera, and a 2MP macro camera. Supporting the camera is a dual flash.

The front of the realme GT Neo2 Dragon Ball is a 6.62-inch screen with an AMOLED panel that supports 120Hz refresh rate, HDR10+ and a maximum brightness of 1300 nits. This screen is pre-customized with Dragon Ball-themed wallpapers and icons. This is realme's Android 11-based Realme UI 2.0 customization interface.

The front camera is placed in a small hole on the left. This lens also has a resolution of up to 16MP to meet the needs of video calling, taking selfies.

Inside, realme GT Neo2 Dragon Ball is also equipped with Snapdragon 870 5G chip combined with RAM from 8-12GB and optional internal memory 128-256GB. With a selling price of only 9.6 million VND This is considered a high-end configuration with the most economical cost. Currently, the appearance does not match anyone's.
