

OPPO Find X2 with many market-leading breakthroughs launched

Thus, OPPO Find X2 with a series of innovative and innovative technologies will officially be sold in Vietnam market from April 1.

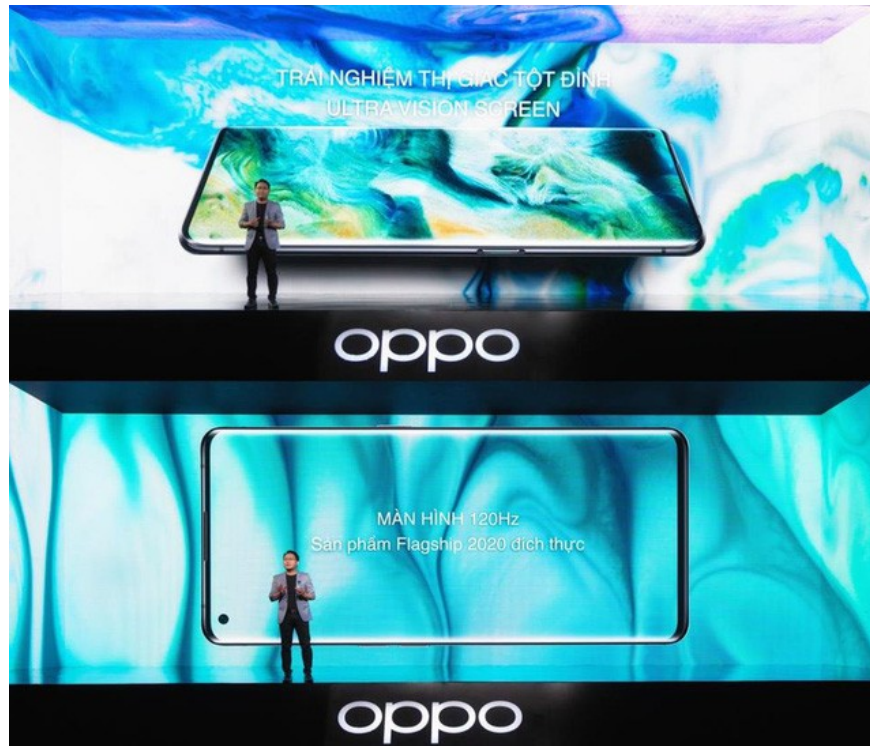

Today (March 15), OPPO has officially launched the **OPPO Find X2** in Vietnam market, a smartphone of the Find product line that is innovative and unique, inheriting the elite and superior technology from First generation Find X. The launch event was organized online by OPPO via social media channels (Facebook and YouTube) to ensure the maximum health and safety of everyone during the Covid-19 season.

At the launch event, OPPO introduced outstanding and technology-oriented features on the Find X2. **OPPO Find X2** carries in quite a lot of features that few other smartphones on the market can compete with, and when combined, "Find X2 is the best smartphone for everyone."

In addition to highlighting the strengths of the Find series over the years, at the launch, Mr. Van Ba ??Luo, Product Manager of OPPO Vietnam also focused on introducing each of the main and prominent features on the Find X2 such as Seamless design, sharp screen 120Hz 2K, cluster of 3 impressive cameras, SuperVOOC 65W super fast charging technology and ready to connect 5G .

With the Find X2 display, OPPO says it has equipped the device with the highest quality screen, which has led to "the ultimate visual experience". Technologies such as 2K + high resolution, 120Hz refresh rate and 240Hz screen interactive frequency will be the decisive factors for the user's visual experience, bringing the most realistic and smooth images in use process, especially when experiencing top-notch graphics games.

One of the display highlights on the OPPO Find X2 is the inclusion of an O1 Ultra Vision Engine, which enables the automatic conversion of SDR-quality videos to HDR (YouTube and Amazon), and can also enhance image smoothness thanks to Motion Clear technology.

And yet, the screen quality of OPPO Find X2 is also confirmed again through 10-bit screen technology, allowing the display of up to 1 billion different colors, outperforming the 8-bit screen common on smartphones currently on the market. In addition, the Find X2 screen is also certified from TÜV Rheinland with a comprehensive eye protection certificate. Thanks to that, OPPO Find X2 has been awarded a Display + rating by A DisplayMate, the best in the world today.

Not only is the smartphone with the best screen in the world, OPPO Find X2 Series is also rated as the smartphone with the best camera (according to DxOMark). In particular, Find X2 is equipped with 3 main camera clusters including a 48MP wide-angle camera, a 13MP telephoto camera and a 12MP ultra wide-angle camera. With these three main cameras, OPPO claims that Find X2 will produce the best images.

Hardware is one thing, the camera on Find X2 is also optimized thanks to the software with a variety of different shooting modes, including the all-new 3.0 Super Night mode, Super macro mode, Super mode. image stabilization, video noise reduction, 5x hybrid zoom, or even HDR Live video recording. These exclusive modes and features have contributed to making the OPPO Find X2 the best camera phone in the world.

Although equipped with a high-resolution screen and high frequency scan, however, not so that Find X2 has poor battery life. In contrast, OPPO offers two solutions to optimize the battery life on its flagship, which is both integrated with a high-capacity 4200mAh battery, and equipped with SuperVOOC 2.0 fast charging technology with a capacity of up to 65W. , helps fully charge the battery in just 38 minutes, accompanied by a safety certificate from TÜV Rheinland so that users can feel secure when using it.

As a premium flagship, of course OPPO Find X2 will also lead the way in performance. Equipped with Snapdragon 865 chip, the most powerful chip at the moment comes from Qualcomm. It is thanks to the Snapdragon 865 chip that comes with the advanced 5G modem that OPPO Find X2 is considered as the pioneer smartphone promoting 5G in Vietnam.

Speaking at the launch of Find X2, Mr. Thieu Phuong Nam, General Manager of Qualcomm Indochina, emphasized on the 5G technologies that Qualcomm has achieved: "Currently, we have been advancing and celebrating Originally 5G, Qualcomm is the world leader in 5G technology, building 5G standards as well as providing chipset platforms for 5G devices globally. "

In addition, Mr. Thieu Phuong Nam also said that OPPO Find X2 is one of the first smartphones in the world equipped with Snapdragon 865 chip with advanced 5G network support. He also predicted that by 2023, there will be 1 billion users using 5G network worldwide, of which in Vietnam, in 2020, 5G technology will be strongly oriented and developed. , and OPPO Find X2 will be the first smartphone to pioneer 5G support in Vietnam.

At the end of the launch, OPPO also announced the price of Find X2 with promotions and gifts. Specifically, OPPO Find X2 will be priced at 23,990,000 VND and officially on shelves on April 1 here.

The Find X2 reservation program will also be launched from March 16 to March 31 with the premium gift of a B&O BeoPlay A1 speaker worth VND 7,900,000,

Find X2 is Oppo's latest high-end smartphone, officially launched in Vietnam market on March 15. Accordingly, from March 15 to March 31, customers who pre-order Oppo Find X2 will receive attractive gift sets, including B&O speakers (worth VND 7.9 million), and receive 0% installment discount , 12-month global warranty, 18-month genuine warranty, 6-month broken screen warranty and 0% installment payment.
