

Pavilion dv2-1006AU is as small as a netbook

This machine is just a little bit bigger than a netbook in size but still has the full functionality of a regular laptop.

This machine is just a little bit bigger than a netbook in size but still has the full functionality of a regular laptop.

Pavillion dv2 12 inch screen.

The HP Pavilion dv2-1006AU pioneered the use of the 1.6 GHz Athlon Neo MV-40 processor based on AMD's latest Yukon platform. This is a low-power processor (15 Watt) exclusively for ultra-thin notebooks, which AMD claims to have superior performance while the price is still competitive with netbooks.

In fact, with a selling price of just under VND 12 million, the HP Pavilion dv2-1006AU is a reasonable choice when considering the aesthetics and configuration that satisfies very high-tech entertainment activities. The case is decorated with Espresso sink, durakey keyboard with corrosion resistance of 92% compared to normal notebooks. Design reasonable and complete connection ports on both sides of the camera body: 3 USB, a LAN, a 5 in 1 memory card slot, a VGA connector, and an HDMI port. This model has 1 GB RAM, 160 GB 3D hard

drive, DVD RW LightScribe drive plugged in via USB port. This is also an outstanding feature that helps the machine's weight drop to an ideal level, only about 1.7 kg.

LED technology screen with resolution up to 1,280 x 800 pixels, ATI Mobility Radeon graphics processor with capacities up to 512 MB and HDMI connection to help display high quality audio images.

The ultra-compact product, the HP Pavilion dv2-1006AU features a number of HP Pavilion Notebook features such as eSATA and IE1394 connectors, Expansion Port connectivity, Multimedia touch keys and a set of features. Remote control. However, these points do not diminish the power of entertainment of HP Pavilion dv2, because in the mobile environment, the above features are not really necessary.

The device is equipped with Windows Vista Home Premium operating system and utility software that are very practical for users such as software suite for optical drive CyberLink Suite. Management software features very convenient computer Total Care Advisor, software for Smart Media smart entertainment features. Tested with multimedia features, quiet operation, but quite high heat dissipation, however, HP confirmed that this situation is normal and does not affect the life of the machine. The standard 4-cell battery pack allows the HP Pavilion dv2-1006AU to operate continuously for 4 hours in average working conditions.
