

Pavilion HDX16T-1005TX: a professional entertainment machine

HP really proved to be the world-class leader in entertainment computing when it launched the HDX16T-1005TX laptop.

HP really proved to be the world-class leader in entertainment computing when it launched the HDX16T-1005TX laptop.

The case is decorated with a special pattern

For the purpose of replacing desktop computers, the HDX16T-1005TX has a fairly large size and weight. Only those who really like high-tech can accept weight up to 3.5kg and 16-inch screen of this machine.

The case is decorated with a special pattern that HP has not equipped for any previous model. Still HP Imprint technology on a glossy black painted background, but the smooth curving patterns on the chassis create a sense of luxury. The surface of the machine is made of titanium metal that is scratch-resistant, so the keyboard is always kept as new.

HDX16T-1005TX supports multiple connection ports

The 16-inch LCD screen of the HDX16T-1005TX is 55% higher than standard displays and responds to today's highest resolution video signals such as TV signals or video signals from Blu DVD. -ray. The HDX16T-1005TX also supports 7.1 channel multi-channel audio via HDMI 1.3 port along with HP Triple bass reflex high-power subwoofer system located below the base.

Other features for entertainment are still guaranteed, such as a touch LED system that makes it easy to operate when in a dimly-lit place, 4 USB ports, 1 VGA connection, 1 IEEE1394.1 port HDMI transmits professional image audio, an eSATA connection allows high-speed data transmission with devices up to 3Gb / s, standard N, bluetooth, etc. Users can also enjoy the TV program right on the HDX16T-1005TX screen with TV tuner function attached to the device.
