

Philips launched a 6 inch curved screen phablet with 13MP rear camera

Philips has launched two new smartphones, called I928 and S388, in India, which are officially listed on Philips' official website in India.

Philips has launched two new smartphones, called I928 and S388, in India, which are officially listed on Philips' official website in India.

Philips I928

I928 is a 6 inch full HD phablet with 2.5D curved screen, ultra-thin edge edge, supported by 8-core MediaTek chip, 13MP rear camera with f / 2.0 aperture lens and 5MP front camera for selfie shooting feature . Other parameters include 2 SIM support, Android 4.2 Jelly Bean operating system, 2GB RAM, 16GB internal memory (with expansion slot) and 3000mAh battery capacity.

The screen is slightly curved at the edges

*The Philips S388 has a 4.5-inch qHD display, MediaTek quad-core processor with 1.3GHz speed, 5MP and 0.3MP front camera, runs Android 4.2 Jelly Bean, supports dual SIM. Other specifications include 1GB RAM, 4GB internal memory (*expansion slot support*) and 1700mAh battery.*

Philips S388

The selling price of *Philips I928* and *S388* is Rs. 38538 (*VND 13.4 million*) and Rs. 13694 (*4.7 million*). Particularly, the version at *S388* in Vietnam has been sold for *VND 2.8 million*. And the *I928* version is not clear whether it is back to Vietnam or not.
