## Learn about Philips non-oil fryer

### The concept of a fryer is not oil

The oil-free fryer is also called with many different names such as: vacuum fryer, hot gas fryer or air fryer .

This is a relatively new type of fryer in Vietnam, overcoming the limitations of traditional frying methods.

However, during the frying process we still use oil but the amount of oil has been reduced significantly by about 80-90% compared to the amount of oil when using the traditional frying method.

## Is Philips oil-free fryer good?

1. Philips is known as a famous brand from the Netherlands, specializing in producing all kinds of household goods with guaranteed quality. Philips non-oil fryer has the advantage of owning a beautiful, eye-catching design with good quality and affordable price.
2. If you are in need of an oil-free fryer, then of course Philips is the best option today.
3. Philips non-oil fryer tops the independent tests and has won awards around the world. With this oil-free fryer, you will have delicious, crunchy, healthy food that is easily prepared.
