

# Phone codes of countries around the world will be updated by 2020

Phone codes for countries around the world will be updated by 2020. The phone numbers for each country in the world will be distinguished by a three-digit area code and before calling a country, we must add the code the area before the phone number is the new call

Phone is one of the greatest inventions of man. With just one phone, we can communicate with each other from any country in the world. However, the phone number for each country in the world is distinguished by the area code with three or more digits and before calling a country, we must add the area code before the phone number to make the call become work.

Invite you to find out about the telephone area code of countries around the world through this article of [Thuthuatphanmem.vn](http://Thuthuatphanmem.vn) offline!

## **How to call directly:**

Dial 00 + Country code + Area code + Phone number to be called.

Or +00 + Country code + Area code + Phone number to be called.
