>>> **The first Ivy Bridge laptop from Dell in Vietnam**

June is the time when many computer manufacturers will start launching models of Intel Core i Ivy Bridge processors to Vietnam market. Dell is one of the first names with the Inspiron 14R 5420. It runs on a 2.5 GHz Intel Core i5-3210M processor with the latest 3rd generation Core i platform. This new line processor offers up to 15% increase in performance over the previous generation.

Inspiron 14R 5420 has 14 inch screen resolution of 1366 x 768 pixels, 4 GB RAM memory, 500 GB hard drive and Nvidia GeForce GT630M graphics card.

Another special feature of Dell's new laptop model is that it is equipped with up to 4 USB ports which are the latest 3.0 standard with charging technology when the machine is turned off. This product also has VGA, HDMI, LAN and optical read / write DVD drives. The product comes preinstalled with Ubuntu 11.1 operating system.

The machine has a reference price of VND 15.9 million excluding VAT.

**Below is the actual picture of this product.**

The cover of the machine is covered with a high quality aluminum imitation plastic.

14 inch screen size.

Chiclet keyboard follows the tradition of Dell. The navigation keys of the machine are quite large.

The touchpad gives the initial feel not really smooth.

Dell 14R's new design is much more natural on rounded contours.

Left side with VGA port, power, heat sink slot, HDMI, 2 USB ports, headphone and microphone jacks.
