

# Pixelbook Go - Cheap Chromebook Laptop running Chrome OS, weighing 900g, 12-hour battery, priced from \$ 649

Pixelbook Go has a new design and upgrades to help users have a better experience with Chromebooks.

Recently, Google officially launched Pixelbook Go, its cheap Chromebook laptop at the Made by Google '19 event. This new model of the technology giant has a new design and upgrades to help users have a better experience with Chromebooks.

Pixelbook Go has a fairly thin and light design made entirely from magnesium alloy with a thickness of 13mm and weighs 0.9kg.

The bottom of the device has rugged lines that make it easier to hold.

Unlike the original PixelBook, Pixelbook Go cannot be folded to the back 360 degrees. It has a 13.3 "screen with HD 1080p and 4K versions, 16: 9 aspect ratio. The keyboard of the machine uses Hush Keys without making any noise when typing.

The device is equipped with an extremely impressive battery capacity, can use 12 hours, supports fast charging. Pixelbook Go runs on ChromeOS platform.

### **Configuration of Pixelbook Go**

Chip 8th Gen Intel Core m3, i5, or i7 RAM 8GB / 16GB Memory 64GB / 128GB / 256GB SSD Weight 2.3 pounds (FHD) Thickness 0.5 inches / 13.4 mm Battery Up to 12 hours, equipped with fast charging capability 13.3-inch screen, 16: 9 ratio, with touch; HD (1920 x 1080) or 4K (3840 x 2160) Front Camera 2MP, 60 fps, 1080p video Wi-Fi 802.11 a / b / g / n / ac, 2x2 (MIMO), dual-band (2.4 GHz, 5.0 GHz) Bluetooth 4.2

From now on, you can pre-order PixelBook Go for \$ 649 and come in either pink or black.

The PixelBook Go will cost \$ 1,399 for a full option such as a 4K screen - 16 GB RAM - 256 GB SSD, Intel Core i7.

1. Google launched the duo Pixel 4 / Pixel 4 XL, 90Hz screen, Snapdragon 855, priced from 18.6 million
