Ocmo is a super difficult, super inhibited but super cool intellectual adventure game from Team Ocmo, which is being free on the App Store for a short time.

Ocmo is a super difficult, super inhibited but super cool intellectual adventure game from Team Ocmo, which is being free on the App Store for a short time. The game has an extremely high difficulty level, when players have to use all of their intelligence, senses and reflexes at about 80 levels of gaming. We will use the flexibility of the finger to help alien creatures with tentacles around them move to many different terrains, easy to get, difficult to get, even more complex.

The game is basically very simple, there are not too many requirements or tasks that we have to perform. You only have one job to do is to bring the alien creature to move to the end of the journey. Theoretically, but in reality, everything is not that simple.
