The series of laptop products recently launched by HP Vietnam in the shopping season has made a strong impression on consumers thanks to outstanding performance and attractive fashion style.

Among the new product lines are the outstanding models with many outstanding features such as HP ProBook 5310m; HP Pavilion dm1 and HP Pavilion dm3.

HP ProBook 5310m: Ultraportable 3G support

Combined with aluminum alloy with a magnesium frame and a soft coating, the HP ProBook is truly a notebook with a sophisticated and unique design. Thanks to HP DuraKeys technology, this laptop's sleek keyboard can retain its durability, making text & numbers more durable and sharp than 50 times more than conventional keyboards. The HP ProBook 5310m screen uses the latest LED technology, 16: 9 ratio, anti-glare or BrightView super-bright technology that supports HD (High-Definition) movies with images, brightness, contrast and clarity. high transparent.

Considered one of the world's thinnest laptops, with a thickness of only 0.93 inches and a weight of only 1.72 kg, the HP ProBook 5310m deserves to be an assistant to mobile professionals. A thin and light laptop, but the HP ProBook 5310m has an impressive performance with the Intel Core™ Duo SP9300 processor that meets the user's expectations that require performance factor. Using a high-capacity lithium-polymer battery, this laptop allows for up to 8 hours of battery life.

In addition, the HP ProBook 5310m really impresses users with a host of unique new technology and application features. For example, the HP QuickWeb application resides outside the operating system, giving users access to the Web in seconds via a dedicated button even when the machine is turned off; or the HP QuickLook 3 feature allows users to read and edit e-mail, calendar bookmarks and contacts without starting the device; or 3D DriverGuard solution helps to protect the laptop's hard disk before collisions, shock and fall by warning the system software before any sudden and temporary movement of the hard drive; then HP Fast Charge super-fast charging technology is capable of fully charging 90% of the battery power of the device after only 90 minutes, very convenient for you to work and move .

Another hot information that Vietnamese users cannot ignore in this ultraportable laptop is the ability to support 3G technology. HP ProBook 5310m is one of the few HP models in the partnership list between HP and VinaPhone. With VinaPhone's 3G SIM card integrated, HP ProBook 5310m laptop users can now connect anytime and anywhere.

HP Pavilion dm1: 'Baby Pepper'

On the outside, with a thickness of less than 1 inch (2.54cm) and only about 1.46kg, many reviewers of the HP Pavilion dm1 are a tiny laptop. However, the technical parameters of the machine have made many people admiring praise for this "pepper boy". The HP Pavilion dm1 has an Intel Celeron Dual-Core Processor SU2300 or Intel Pentium Processor SU4100, with Intel Graphics Media Accelerator 4500MHD graphics card with 1295MB of shared graphics memory and the ability to store up to 500GB of standard content High-Definition (hard disk speed 5400 revolutions / minute).

HP Pavilion dm1 LED screen, wide, 11.6 inch (widescreen), super bright with BrightView technology, supports high definition content HD. The keyboard system has 95% full size keys, but there are also quick launch buttons and one-touch Action keys. In addition, the Touch Pad with additional up / down scrolling features specifically designed for HP notebooks is also a noteworthy plus.

HP Pavilion dm1 is also preinstalled with HP MediaSmart software, which helps users manage and enjoy music, movies, photos and other content quickly and easily. In particular, with more than 7.5 hours of battery life and support of integrated WWAN options for wireless connectivity, projection of this laptop will completely satisfy the need to store, search for digital photos, play music, and email. or surf your web.

HP Pavilion dm3: Performance full of personality

This laptop product of HP is evaluated by experts as a harmonious combination to the ideal between performance, mobility and maximum convenience in a sleek and sleek design. With a lightweight frame, aluminum alloy cover and a modern design, users will always be proud to carry with their HP Pavilion dm3 (only 1 inch thick and weighing from 1.91 kg). It has a 13.3-inch widescreen (widescreen) screen with LED backlight, super bright with BrightView technology, supports high-definition content HD.

However, the most impressive feature on the HP Pavilion dm3 is an outstanding performance compared to the small weight thanks to Intel CULV or AMD Neo processors, discrete Nvidia or ATI graphics cards. The storage capacity of the device can be up to 500GB of high-definition content (7200 revolutions per minute hard disk speed). When combined with AMD Neo processor and ATI graphics card, HP Pavilion dm3 supports 5 hours of battery life, comes with a PowerXpress utility that provides graphics efficiency when the computer is plugged into power; or switch to 'unified' graphics mode when not plugged in to optimize battery life. When using the Intel CULV processor, this laptop is capable of operating for 7.5 consecutive hours.

In terms of connectivity, the HP Pavilion dm3 supports integrated WWAN options for wireless connectivity, along with a standard VGA VGA webcam capable of operating in low-light conditions and built-in microphones for users to keep contact with friends, relatives and colleagues. An external optical drive (optional) and Blu-ray disc support are also provided in this product.
