

Popular genuine Canon inks

There are many types of genuine Canon ink cartridges and each one of them will work with different Canon printers.

There are many types of genuine Canon ink, and each of them will suit each different Canon printer model. Genuine ink is manufactured in accordance with the process to ensure the quality of the print, to avoid the print out error. Here are some common inks on Canon printers.

1. Toner Cartridge 052

Cartridge 052 is compatible with Canon 212DW, 214DW, MF424DW and MF426DW printers. Canon prints can print 3,100 pages with 5% ink coverage. This ink is compatible with a wide range of printers, limiting printer malfunction or affecting print quality.

2. Cartridge Cartridge 303

Cartridge 303 is compatible with Canon LBP2900 or LBP3000 printers. A Cartridge 303 can print approximately 2000 pages with 5% ink coverage. This type of ink is suitable for printers for families, small and medium offices, or offices that do not need to print too much.

3. Toner Cartridge 325

Cartridge 325 corresponds to Canon LBP6000, LBP6030 and MF3010AE printers. A Cartridge 325 can print about 1,600 pages with 5% ink coverage. This ink is relatively soft, not too high, so many people choose.

4. Toner Cartridge 337

Toner Cartridge 337 is used on Canon MF 241d, MF 212W, MF 221D, MF 215 and MF 217W printers. A Cartridge 337 cartridge can print approximately 2400 pages with 5% ink coverage.
