The fantasy movie Power Rangers (5 superheroes) was released on March 24 and received a lot of positive feedback from viewers. And recently the movie version of this title game has also been released on Android and iOS called Power Rangers: Legacy Wars.

In Power Rangers: Legacy Wars, players will be selected in 30 characters and 4 different arenas. The more you play, the more characters you have to choose with the aim of forming a team to destroy the bad guys.

Players can upgrade their warriors with Zeo pieces. These pieces will be received after each level. Winning as many stages as possible gets more rewards.

Power Rangers: Legacy Wars also supports real-time PvP mode with other players. In this mode, you can plan, dodge and fight against other players, as well as unlock more arenas and different famous places on the movie.

You can even build an alliance with friends, where you can share, discuss, exchange tactics, strategies and combos. With beautiful graphics, Power Rangers: Legacy Wars deserves to be a good game to play and help you have a good time after stressful working and studying hours.

Power Rangers: Legacy Wars is currently free to download on Android and iOS.
