

Pray for blessing for healthy laptops

First of all, it must be recognized that the Japanese are very famous for their trendy technologies. However, few people know their technology equipment is prayed completely.

First of all, it must be recognized that the Japanese are very famous for their trendy technologies. However, few people know their technology equipment is prayed completely.

According to technology website Newlaunches, shrines for high-tech devices exist in Japan. Many Japanese people still go to these temples to pray for the new equipment they have purchased. Kanda-Myojin Shinto is one of such shrines.

Security card of the temple and a microchip

Kanda-Myojin Shinto shrine will bless technology equipment with a card. The card is said to be able to protect owners of high-tech devices from threats. Monks in this century-old temple will have a strong mental protection role for computers, electronic devices and even a blog.

The temple is located not far from Tokyo.

Pray for laptop
