

Predator XB253QGX - Gaming monitor 240Hz is hunted by gamers today

Just launched not long ago, but Predator XB253QGX is creating a fever for the community by the advanced technology that it brings: superfast scanning frequency of 240Hz, IPS panel, 0.5ms GtG response time and design Cool cool for the angle of gamers.

Standard design Predator

Impressive on this screen is a sturdy stand with 3 pins and a specific Predator logo as a highlight in the middle. Since the screen is part of the Predator line, XB253QGX has a bold gaming design and is pleasing to the average gamer to hardcore. The borderless design helps gamers immerse themselves in a stressful virtual world.

Predator XB253QGX is capable of adjusting the height of the multi-directional rotation and has a handy USB 3.0 port suitable for the design. Acer monitor legs are equipped with additional shelves and headset holes make the space becomes much more neat.

The screen ensures color accuracy with the ability to display 99% of the sRGB color range and meets the VESA Display HDR400 display standard, 400 nits of brightness twice the normal products, providing colorful frames but still Accurate, suitable for use as a gaming monitor as well as specializing in graphic work.

The first 240Hz 0.5ms IPS display in Vietnam

Equipped with a 240Hz refresh rate, 0.5ms GtG high response time on an IPS panel, the Predator XB253QGX is a rare product in this segment. Previously, gaming monitors with fast refresh rates only owned traditional TN panels. Thanks to that, Predator XB253QGX helps gamers enjoy gaming moments while experiencing the exact colors that the IPS panel brings.

This screen is 25 inches in size with Full HD resolution. Certified G-Sync (G-Sync Compatible) by Nvidia, gamers can play AAA games on Predator XB253QGX smoothly, completely eliminating ghosting or tearing the frame.

Like other products, Acer does not forget to equip this screen with other user support technologies. Predator XB253QGX is equipped with 3 GameView display modes corresponding to each type of game, including: action, racing, sports. Black Boost technology with 11 levels of lighting adjustment helps gamers gain an advantage in the "difficult" stages. Acer Display Widget software helps users to install and adjust initially easily.

The Predator XB253QGX has a retail price of VND 11,500,000. Accompanying is the 3S1 Warranty service for Acer's premium products: quick warranty, within 3 days including Saturday and Sunday, more than 3 days for new or equivalent product replacement for customers. This is why gamers are hunting for this monitor now.

From now until the end of May 31, when ordering new Predator XB253QGX monitors at Acer product dealers nationwide, customers will receive a gift set worth 3,500,000 VND, including 1 Predator Gelea 311 headset and 1 Acer branded 3/4 helmets.
