

Presario star in the cheap laptop segment

Compaq Presario CQ40 is considered to have a good competitive advantage with a solid chassis structure, high configuration and lower price compared to similar products.

Compaq Presario CQ40 is considered to have a good competitive advantage with a solid chassis structure, high configuration and lower price compared to similar products.

After Compaq Presario C700 is cheap, the "pro" design is "rainy" in the laptop market recently. This month, HP again launched a new generation of low-cost products Compaq Presario CQ40.

In terms of design, the CQ40 has an entirely new set, the exterior is adorned with the exclusive HP Imprint paint technology that was previously available only for mid-range and high-end HP Pavilion or Compaq Presario V-series laptops. . Compared to the bare plastic casing of C700 before, CQ40's shell is shiny with silver and black tones, creating a more charming feel and is also resistant to scratches.

Screen size is also reduced from 15.4 inches to 14.1 inches wide with ultra-bright mirror technology. The weight of the machine also decreased from 2.5 kg to 2.3 kg. This is an ideal weight level, increasing the mobility for users.

In terms of configuration, Compaq Presario CQ40 is equipped with Intel Celeron M 575 and Intel Pentium Dual Core T3200 CPUs - all support 64 bit technology, FSB clock speed is increased from 533 MHz to 667 MHz.

The T3200 CPU also has 45 nm technology to add more performance to the processor. Graphics card is upgraded to GMA 4500 instead of GMA 3100 as before. Compaq Presario CQ40 is also equipped with 1 GB Ram memory with the ability to upgrade up to 4 GB. Hard disk capacity is also expanded to 120 GB and 160 GB.

In addition to the configuration upgrade, HP also equipped on this cheap product almost all connectivity and entertainment features. It is Wi-Fi standard b / g, LAN Gigabit connection, 56K Modem, webcam, microphone, dual-layer DVD RW drive, memory card reader slot .

Technical specifications and markets

Compaq Presario CQ40 - 124TU:

- Celeron 575 processor (2.0 GHz / 667 MHz / 1 MB)
- 1 GB DDR2 RAM, 120 GB hard drive - 5 rpm speed, DVD-RW drive
- Intel GMA 4500 graphics card, 802.11bg WLAN, NetXtreme Gigabit Ethernet, 56K Fax / Modem
- Video line out S-Video, Media Card, WebCam
- 14.1-inch mirror screen, 6-cell Lithium battery
- Weight 2.3kg
- Reference price: 589 USD

Compaq Presario CQ40 - 108TU:

- Processor Core Duo T3200 (2.0 Hz / 667 MHz / 1 MB)
- 1 GB DDR2 RAM, 160 GB hard drive - 5400 rpm, DVD-RW drive
- Intel GMA 4500 graphics card, 802.11bg WLAN, NetXtreme Gigabit Ethernet, 56K Fax / Modem
- Video line out of S-Video, Media Card, Webcam
- 14.1 "mirror screen, 6-cell Lithium Ion battery

- Weight 2.3 kg
- Reference price: 729 USD
