Highlights

With my experience, I found that **the Tiross T S 621 coffee maker** is worth choosing by the following outstanding advantages:

1. Equipped with a foaming mode that helps prepare standard Italian Cappuccino coffee with a delicious characteristic flavor.
2. The anti-drip system keeps the machine always hygienic during mixing
3. Specially luxurious design with two basic colors is black and silver, which contributes to the modernity and comfort of the space used.
4. Tiross TS621 uses stainless steel mesh screen to be easy to clean and not replaced after each use as a paper screen.
5. Can make 1 - 4 cups of coffee for each use
6. The device only needs 3-4 minutes to make 1 cup of coffee so it is very suitable for busy people, use at office, company.

Overall, Tiross TS621 fully converges the 'quality' of a quality coffee maker. With this, you will enjoy delicious coffee, without spending too much time or money.

Tiross TS621 coffee machine with many outstanding advantages

Notes when using Espresso coffee machine Tiross TS - 621

Espresso Tiross coffee TS621 is good, but if you don't know how to use it properly, it is impossible to create standard coffee. Here are some helpful notes you should know when using this device:

1. Always read the directions carefully before use, especially for the first time
2. Make sure the source of voltage matches the specifications of the machine
3. When not using the machine or needing to clean the machine, unplug it from the power outlet
4. Let the appliance cool before cleaning or storing the device
5. Do not let the power cord touch the hot surface of the machine
6. Always monitor when the device is operating
7. Keep the device away from children
8. No device is in standby state for too long

9. Do not touch the machine when it is operating
10. Regular cleaning and maintenance to keep the machine durable
11. Coffee should be grinded at medium level, not too big, not too smooth. Also when brewing, you should not squeeze coffee too tightly because it will affect the quality of coffee.

Use the Tiross TS621 coffee machine properly to get the right coffee

Instructions on how to clean Espresso coffee machine Tiross TS - 621 simple

Coffee cleaning machine Tiross TS621 is something we must do to protect the machine while ensuring the quality of coffee flavor. So how to clean up?

Frequency of cleaning: Every 2 - 3 months, you should clean the coffee maker once.

Tools to prepare : Citric acid solution and clean water. Citric acid is a weak acid found in lemon. This substance can clean the dirt without affecting the parts of the machine. You can find citric acid at pharmacies or chemical stores. In case you can't buy it, you can use lemon juice or vinegar instead.

Steps to take :

Step 1 : Take an adequate amount of citric acid to mix with water at a ratio of 3: 1 (3 parts acid and 1 part water).

Step 2 : Wash the bottle with cold water and then fill the mixture with the bottle.

Step 3 : Pour the solution from the bottle into the coffee chamber of the coffee maker, turn on the machine to dial once and turn it off.

Step 4 : Keep the solution in the bottle for 10-15 minutes to remove all residue

Step 5 : Rotate the coffee maker 2 more times with clean water, each time about 15 minutes apart to remove citric acid in the machine.

Step 6: Make coffee and put the first two glasses away.
