

Price of iPhone 9 will only from 399USD

iPhone 9 will cost \$ 399 for the 64GB version.

Previously, Ming-Chi Kuo, an analyst said that the iPhone 9 will start at \$ 399, which is the same as the starting price of the iPhone SE, launched in 2016. Recently, Fast Company has also confirmed It was reported in its high-profile newspaper, citing the iPhone's supply chain.

The iPhone SE was launched by Apple in 2016 and starts at \$ 399 for the 16GB version, which is smaller than the new iPhone but has similar specs. This is Apple's cheapest iPhone.

With iPhone 9, Apple will likely continue to adopt this strategy but in a newer way. According to the leaked information, iPhone 9 has a similar design to iPhone 8, is equipped with a Home button and Touch ID sensor. It will own a 4.7-inch screen, smaller than the iPhone 11 but larger than the iPhone SE, inside equipped with A13 chip.

The iPhone 9 will cost \$ 399 for the 64GB version, while the price of the iPhone 8 64GB will be \$ 449. Obviously, the iPhone 9 is more affordable to the buyer.

Apple gave an explanation for the price of the iPhone 9 from only \$ 339. The tech giant said that Apple is focusing on services such as Apple Music, Apple TV + . so they expect more and more users to use its devices with the new version of iOS.

While low-cost Android smartphones are increasingly attracting more users, the \$ 9 iPhone 9 will help motivate users who still have iPhone 6, or even iPhone 5 to upgrade their devices. mine.
