

PUBG Mobile 0.17.0 update information

In the upcoming pubg mobile version 0.17, there are many new updates for gamers, from weapons, new modes, features that require a higher level of survival of gamers.

Each PUBG Mobile update will give gamers new features, new game modes, new weapons and other things that gamers may not know. It is true that there are new features that gamers must see details of the introduction to the new update.

This version of PUBG Mobile 0.17.0 also has a lot of new features and weapons that gamers need to learn in the updated list to know how it is. And below is the update to PUBG Mobile version 0.17.0.

Summary of PUBG Mobile update 0.17.0

DBS shotgun

This new shotgun has 14 bullets and is very powerful if used correctly at about 10m and within 20m to the enemy is still hit if hit by DBS.

New Uzi gun

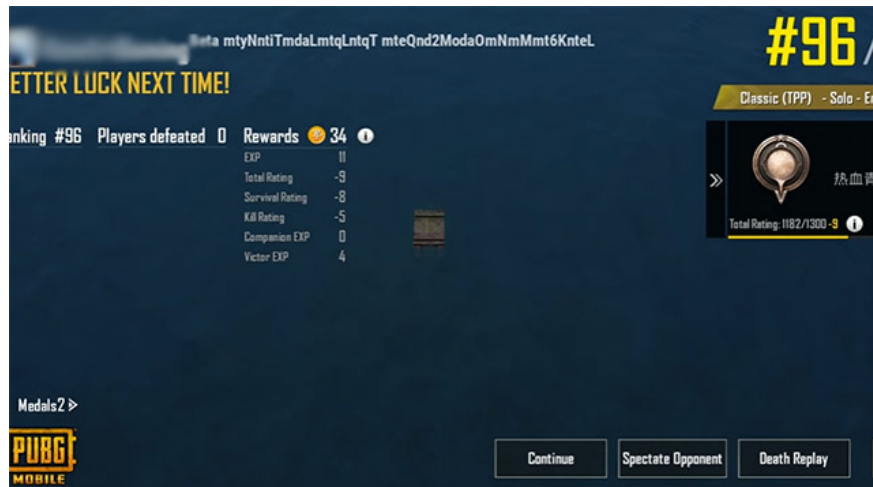

This new Uzi will help gamers aim more accurately when it is allowed to attach the sighting accessories, HoloSight and Red Dot Sight. In addition, other aiming accessories cannot be used on this gun, it is okay because Uzi is only used at close range.

Drone mode (flight control)

This is useful in the last round as it can help you spy on the situation without risking. You can control your drone and fly around to see if there are any enemies, the drone will use the battery instead of gasoline as a vehicle.

Death Replay mode

This mode has been long-awaited by many gamers, especially for true gamers. When this review of your death can help you know exactly what you died by, and especially by the players cheating or not. From there you can denounce exactly who killed you.

Winter mode

Winter Mode is an interesting mode that increases the survival ability of gamers when this mode requires the player to keep their characters warm if there is a snowstorm around. You need to collect heating items on the map.

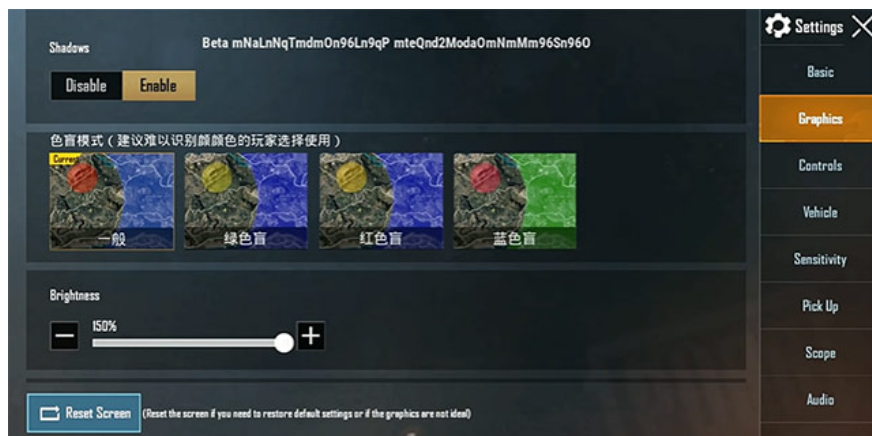

In Winter Mode, every 5 minutes you and the other players will receive a snowstorm and if not warm for your character, your blood will drop very fast. And it will be even faster if combined with the ring.

Computer game

Game machines can appear in the park in **Game Park** mode along with some other types of gaming machines. You need to have the tokens collected on the map to play on these devices, only the skydiving game means you do not need to spend tokens, after every round of play if you achieve a good result, you will have a reward.

Color blind mode

Colorblind mode PUBG Mobile will help those who are color blind to distinguish colors in the game.

Those are contents that will be included in this version of PUBG Mobile 0.17.0. Remember and use whatever you have encountered on this list when participating in the upcoming PUBG Mobile 0.17.0.
