1. Game handle

The game handle on the current market has many types, with many different price segments that gamers can choose. Even for those who have not used mobile games before, it is still possible to get acquainted with this accessory quickly.

Partly, the design of the mobile game handle is quite similar to the PS and Xbox game console, so the control is not too difficult, another part is the game handle will help you not get entangled and cover part of the screen Looks like other handles. Just connect and install some basic parameters that you can use the gaming handle in PUBG Mobile or other games already.

2. Trigger

Compared to the above handle, Trigger has a much more comfortable price, you can even create yourself a pair of Trigger with simple things like tape, wooden clothes clips, foil. However, the quality will not be equal to the Trigger you ordered online.

To use this accessory, you only need to attach 2 Trigger on the back of your phone when playing PUBG Mobile, re-install the two firing buttons and watch upwards, you can both shoot and shoot with high accuracy there. If you install the PUBG Mobile button like that, you will see that the control of this accessory is a bit like the above handle.

3. Keyboard, mouse and dock

This is a combo only for those who have the new conditions to own, to be able to control by keyboard, aiming with the mouse and not covering the screen when manually controlled you will have to spend some money quite a bit to own a network loot accessory with gamers using the touch screen.

However, this combo will cause you trouble because if discovered, your chances are acc PUBG Mobile will be issued by the publisher, but it will not affect when you play other shooter titles. However, this is still the accessory chosen by many people with conditions and products. To install, you only need to plug the mouse and keyboard into the dock connector of the Dock, then connect the phone to the dock as control.

4. Joystick

This is the most affordable and cheapest accessory in the gaming accessories on the phone, there are many different types of joystick for you to choose suitable for your screen. JoyStick basically only works to help characters move more conveniently than just touch touches.

In addition, you can combine JoyStick with Trigger to play this game, this delicious, additional, cheap combo will give you more flexible control in the fighting phases. You should select the Joystick with the above two buttons to fix the button when playing.

5. Headphones

You will detect the exact small noises around when using headphones instead of the phone's external speakers, if you find a headset with a mic is too good because you will coordinate with the team better. Especially in the last round, having a headset will help you coordinate much better.

It's a couple of accessories that give you more control and flexibility to shoot more accurately in PUBG Mobile, if these conditions are available, use a keyboard combo, dock and mouse as best. If not, equip yourself with a gaming handle, or Combo Joystick and Trigger, which is compact and convenient to carry around anywhere to work.

In addition to choosing the most appropriate gaming accessories, you should also equip yourself with the necessary skills when playing games.
