PUBG Mobile VNG: A few tips on using media in the game

1. Use means suitable for each map area

For both Erangel and Miramar maps, gamers can use the vehicle comfortably for a large area and if it is far away from boating, finding a means to run is a blessing. Because you still need time to loot enough items, not to mention that you have to meet an enemy in the same area, it will take a long time before you find a car.

As for Sanhok, the area is only half that of Miramar and Erangel, so owning a car or motorbike is not so important, because if you have a board, you will still be able to jog when you finish it, moreover, The key areas are always in the center of the map so if you jump into Bootcamp or Painan or Paradise Resort, you are completely assured and do not need to go to search for transportation.

2. Select the appropriate vehicle for each terrain

With Miramar, the mountainous terrain so much Buggy will be a reasonable choice, however, this type of car has the disadvantage of only carrying 2 people and not much shielded. So players will need a Mirado or Pick-Up. Mini bus is big but slow, so it is not suitable.

As for Erangel, it's simple, any car can. For Sanhok, the vehicle is not very important, but if you choose, you should choose a UAZ or Rony, or luckier than the UAZ armored "heaven" from the Flare Gun.

3. Use means as bait

The decoy is that you have to play the **Duo** or **Squad** mode, in case you and your teammates are confronting the enemy and have a nearby vehicle. Alone you can use the means to move to other places to attract attention from

the enemy, surely they will attack you.

And your partner's teammates will then attack the enemy team, especially if your team is attacked without knowing where the enemy is, even looking at the map. Remember that when using this tactic, you must communicate well with your teammates to get the most effect.

4. Use the car as a tool

As mentioned above, in addition to using vehicles as a means of transportation, you can also take advantage of different types of cars such as crashing into the enemy causing a traffic accident and then going down to "stink". or use a car as a cannon to fight.

But note that you should stay away from the car when they smoke, if the enemy hits it then the car will be unbearable and then explode. Or put that car into a trap, park your car at the curb in the same way as when it appeared. After that, find a safe shelter and wait to see if anyone approaches that car or if there is an enemy team changing your old car for your car.

The above is a few sharing about the means of transportation in PUBG Mobile VNG, hopefully with a few tips above will help you choose and use the appropriate media on each map of PUBG Mobile VNG offline.
