

# PUBG Mobile: What gamers expect in 2019

This is what many gamers expect PUBG Mobile to update for gamers in 2019

**PUBG Mobile** is currently at the peak of the mobile shooter series, Tencent is currently doing a good job of taking care of its "pet" and giving gamers the best. And the most specific is the update of the winter map Vikendi received and appreciated by many gamers.

But there are still many problems in the game that make the player unhappy, some problems in the game need to be improved and some need to be overcome. Here's what gamers expect Tencent to update in 2019.

## Things gamers want PUBG Mobile Update in 2019

### 1. Zombie mode

At PUBG Mobile Star Challenge 2018, PUBG Mobile has released a Zombie mode teaser of Crossover PUBG Mobile combined Resident Evil 2. With images showing that Tencent will probably add Zombie mode to gamers this year. .

Accompanied by a series of unusual images, from rotting corpses to streaks of blood or human prints printed on the walls . making gamers vaguely guess that there will be a game mode new. This mode will be quite unique

when compared to the existing game modes, maybe gamers will not be using any weapons, the zombies will rely on the number and will depend only on Its huge volume to dominate the enemy.

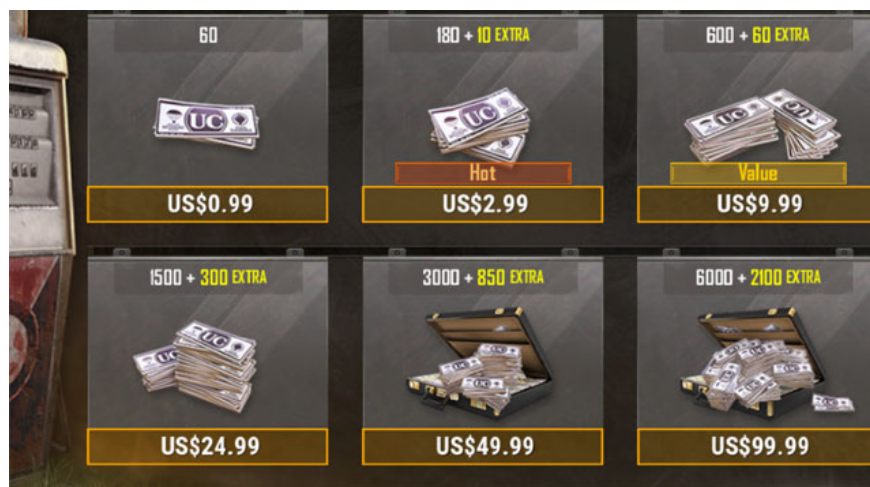

## 2. Improve the network speed of each Server

Although gamers who choose the server with the best Ping level based on their area are in, there are many gamers who still complain that they often meet high ping levels and their game is interrupted because of losing links Internet connection. In addition, when performing normal tasks, gamers also experience lag and when they do something, after a while the system responds.

And although gamers also have many tools to support stable network connectivity on both mobile and PC, players still want Tencent to improve PUBG Mobile's line speed in a stable way, if you are in a lag situation. and ping high, take a look at the article [How to install WTFast to reduce ping when playing online games](#), when the cable is broken to improve your network speed.

## 3. Improve the monetary system

Currently PUBG Mobile has two official currencies, Battle Point, also called BP, the second is Unknown Cash and is abbreviated in the game to UC. With UC currency, you have to recharge it to be able to own it, and BP you can earn yourself in the game through the task.

You can use two currencies to buy in-game products such as clothes, skin weapons, cards . In addition, there are some special currencies that are a coupon to be used to form a **Crates** box. and exchange in the shop, there is also another type of **Silver** , which is accumulated through the opened item in the game and changed into an item in the **Change** section of the Shop.

#### 4. Integrate the Stream tool in the game

PUBG Mobile is a mobile game, but the number of players playing PC versions is also very high. But a hot game like this will not lack streamer jumping into playing and sharing their time with other players.

Most streamer currently use 3rd party software such as Google Play Games, Youtube Gaming, Twitch or Facebook. Many gamers expect that Tencent will update a livestream in the game so that players can conveniently share it on social networks and other tools.

#### 5. Increase the number of FPS to 60

PUBG Mobile can now run well on mid to high-end devices, but to run the maximum configuration for smoothest images, not many smartphones can be installed but must use 3rd party software. , one thing can cause gamers to be banned from management in recent updates.

In the Graphics PUBG Mobile installation, most gamers will only have the option from Low to Extreme and not a fixed 60FPS option. Different from the installation of Fortnite Mobile images on devices that qualify for support. A 60FPS option will make gamers feel a clear difference in image movement.

Those are some things that gamers expect PUBG Mobile to update for players in the game, hoping that new game modes will be updated and the situation of outstanding issues will be resolved.
