PUBG Mobile Zombie: Summary of special weapons to kill Zombie

1. Zombie Grenade

This special grenade is a new weapon in PUBG Mobile Zombie Mode. But this is a quite special weapon when it does not help you destroy the Zombie, but it will summon another Zombie, usually it will summon a fat zombie holding a meat knife.

This grenade will fall out randomly when you kill any zombie, regardless of normal zombies or Tyrant. As long as you work hard to kill zombies, you will get Zombie Grenade, noting that you should use it while the zombies around you have already taken it.

2. 6-barrel gun M134

M134 Minigun is a weapon that symbolizes the destruction, especially with the Zombie. Whoever plays Raid is definitely no stranger to this heavy and destructive weapon. In PUBG Mobile Zombie, too, this gun has a bullet box of up to 200 in one tape and uses 7.62mm ammunition.

Like in other shooting games, the M134 in PUBG Mobile Zombie also has a tremendous speed of fire, it can be said that Minigun's firing rate is more than SMG Vector and very suitable for "fan". The gun was less jerky so it was not difficult to control, only the downside was very heavy and there was room for bullets in the backpack.

This is a very suitable weapon to clean up a crowd of zombies in the game.

3. Combat Knife

Yes, there is still melee on the list of new weapons in this Zombie mode, and that's a . knife. Many gamers will think "What the hell can knives do?" Yes, but it is in the case of many zombies around you, this new melee weapon has very high damage and is quite effective to use close range.

And if there are only a few zombies around you, use the Combat Knife if you can find it, anyway, this item doesn't occupy much "area" in your backpack. And if you want to save some bullets when you can't get a lot of loot, use this knife temporarily.

4. Flamethrower fire gun

Next is a weapon used to sweep the masses like Minigun, this Flamethrower is not too strange for many gamers because this is a weapon that appears a lot in shooting games. And the way it appears in PUBG Mobile Zombie is quite similar to Minigun M134.

Flamethrower only appears when you kill bosses in PUBG Mobile Zombie, and the gun's ammunition is a fuel tank and you can check it out when you kill the Zombie. The most commonly used bullets in PUBG Mobile Zombie are 5.56mm, 7.62mm, .45ACP and 9mm, gas tanks will also appear but with less frequency. The trick to using this gun is most effective is to drag zombies into the east, then discharge the bullets at the zombies standing in front, this is the trick that you should use with Minigun.

That's a few new things about weapons in PUBG Mobile Zombie Mode, hopefully the above will help you get the first experience when participating in PUBG Mobile Zombie Mode.
