

# Puffin Lite, a lightweight browser for iOS users, invite download and experience

Recently, CloudMosa developer released Puffin Lite browser for iOS users, this is a lighter version of Puffin Web Browser.

Recently, CloudMosa developer released Puffin Lite browser for iOS users, this is a lighter version of Puffin Web Browser.

Puffin Lite is built on Apple's open source WebKit application framework, promising to make the browser fast, intuitive new interface that can manage or switch between tabs very easily and features be updated constantly.

In addition, with this browser users can unlock by password or Touch ID, arrange or customize the location of the website at their disposal, personalize the Puffin Lite browser by customizing the background image As you like.

Puffin Browser Lite also has an "auto-fill" function, which helps to avoid wasting screen space, especially when used on iPhone X.
