

# Quake Champions, a one-time FPS shooter, has played for free forever

Quake Champions has a pure FPS game with fast paced, agile, giving people the fierce, suffocating gunfights. In order to be able to win in this game, the player must have a skilled skill and quick reflexes.

Quake Champions is the latest version of Quake Online FPS game series which was very hot in the time of launch in 2017, is said to be on par with games like Destiny 2, Star Wars: Battlefront 2, . Quake Champions has a way Pure FPS play with fast paced, agile gives people fierce gun battles, suffocating. In order to be able to win in this game, the player must have a skilled skill and quick reflexes.

After nearly a year of operating under a fee-based Early Access model, publisher Bethesda Softworks has decided to transfer Quake Champions to free-to-play to attract more players because it does not catch up with market trends. So the number of players is constantly decreasing.

Despite failing, but for those who love fast-paced FPS shooting genre, Quake Champions is still a game worth playing.
