

## Quality laptops

Not only the stylish, powerful laptops like the MacBook, HP Pavilion dv3510nr and netbooks like the Mini 2140, the Eee PC 1000HE is also worth choosing.

**Not only the stylish, powerful laptops like the MacBook, HP Pavilion dv3510nr and netbooks like the Mini 2140, the Eee PC 1000HE is also worth choosing .**

A very simple question for many users is what makes you buy a laptop. The common answer is because of the screen size, good price. However, the simple reason is because they like that product.

Laptops constantly launch new products, there are still models that have good configuration, beautiful design, and useful for users. Here are the top 5 laptops available on the market, including netbooks.

### 1. Apple MacBook

The MacBook has a beautiful design and powerful performance. *Photo: Cnet .*

There are two reasons to choose MacBook because this is a good product besides slim and light design. This 13-inch model has been redesigned by Apple, which is basically a shortened product of the 15-inch MacBook Pro. With the aluminum frame, new trackpad and Nvidia graphics card, it is an attractive choice for fashion lovers and useful.

Reference price: 35 to 41 million VND (depending on configuration).

### 2. HP Mini 2140

The HP Mini 2140 has a large keyboard. *Photo: Cnet* .

HP has brought to the market a high-end version of the Mini 1000 while keeping the selling price deep. The Mini 2140 is one of the most popular netbooks on the market today.

Reference price: 9 million VND.

### **3. HP Pavilion dv3510nr (dv3)**

The thin and light Pavilion dv3510nr has a good price. *Photo: Cnet* .

Comparing with Apple's MacBook on both criteria, the HP Pavilion dv3510nr is the choice of stable laptop lovers but slim and light. It has a 13-inch screen, supports many powerful features but still has good prices.

Reference price: 17 to 21 million VND depending on configuration

#### **4. Asus Eee PC 1000HE**

Asus Eee PC 1000HE battery is strong. *Photo: Cnet* .

Asus is a pioneer in the netbook market, the Eee PC 1000HE is the prelude to combining a mini laptop with high performance and strong battery. However, for fashion lovers, the only strength of the 1000HE is just a keyboard, while the other is a bit thick and heavy.

Reference price: 8.7 million.

#### **5. Gateway FX P-7805u**

Gateway FX P-7805u wide screen, powerful. *Photo: Cnet* .

The Gateway FX P-7805u is a high-end laptop with a large screen, in the desktop replacement line and a powerful configuration, suitable for gamers, high-performance laptops. The screen of this model is also high resolution, great for enjoying HD movies.

Reference price: VND 22 million.
