

Quick Change Scope in PUBG Mobile

With this feature, gamers change the scope instantly rather than having to open the bag and change Scope to match the distance in PUBG Mobile.

Scope is an indispensable accessory in PUBG Mobile. If you do not have at least one Red Dot or Holo, it is difficult to defeat an enemy, even at close range. But in many cases, you will have to use a variety of Scope on the same gun.

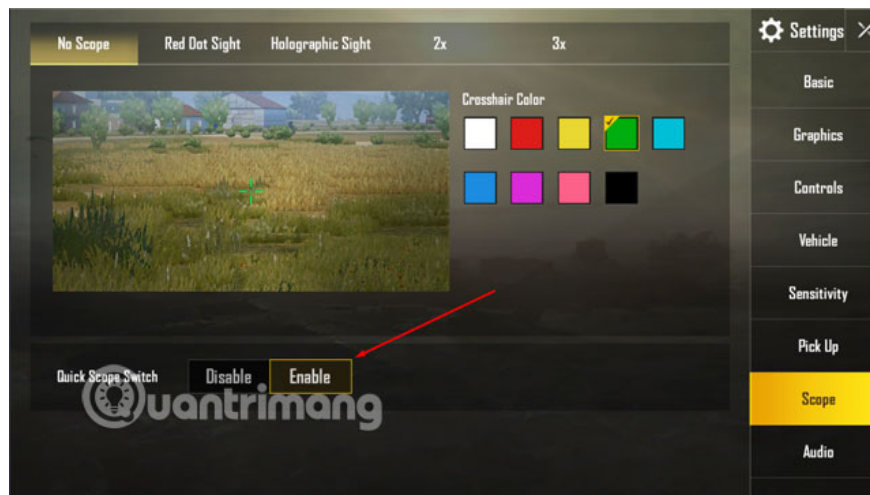

For example, when you are still at the beginning of the battle and you have not entered yet, you need to have a Scope 4X on a certain AR to "visionary". However, at the end of the game, you only need a Red Dot or Holo for close range, but while you are fighting you can open the backpack and quickly change the scope for the weapon you are using.

Follow the instructions below, you will quickly change Scope on the weapon you are using and do not need to open the page to replace the scope anymore.
