

Quick guide to registering for Garena on a computer

Garena offers exciting games such as Arena of Valor, Free Fire, and FIFA Online 4. To experience all the features, you need to create an account.

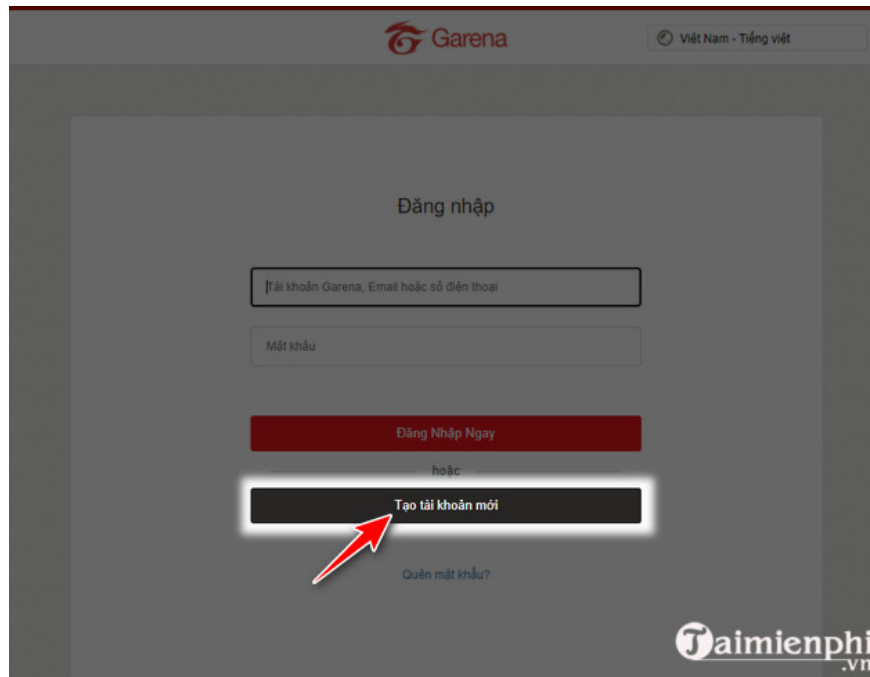

Registering with Garena makes playing online games easy. Below is a step-by-step guide on how to create an account on your computer.

How to register for Garena on a computer

Step 1: Open your PC or mobile web browser, access the Garena account creation link => select **Account** on the right side of the screen.

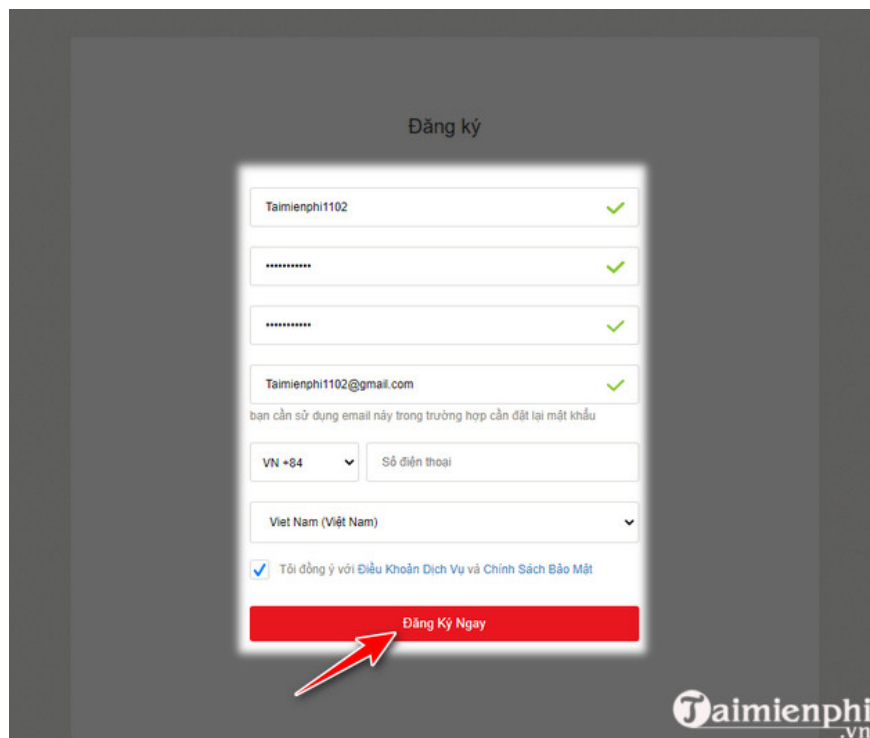

Step 2: The system will immediately take you to the Garena login and registration interface. To create a new Garena account, click the red "**Create New Account**" button.

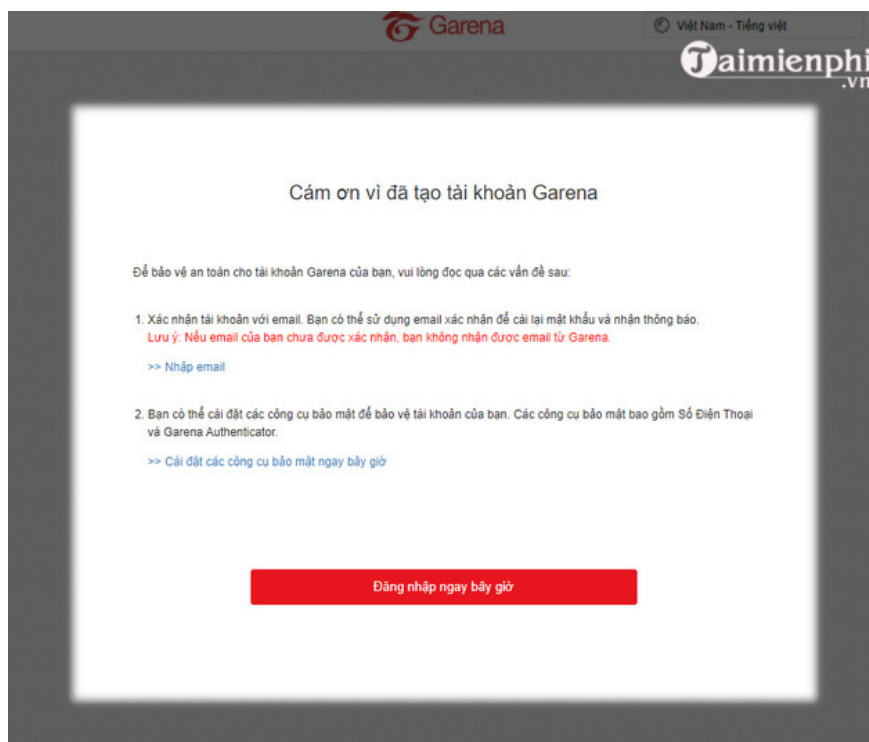

Step 3: In the **Registration** form , enter all the required information to create a new Garena account => click **Register Now** after completing the steps.

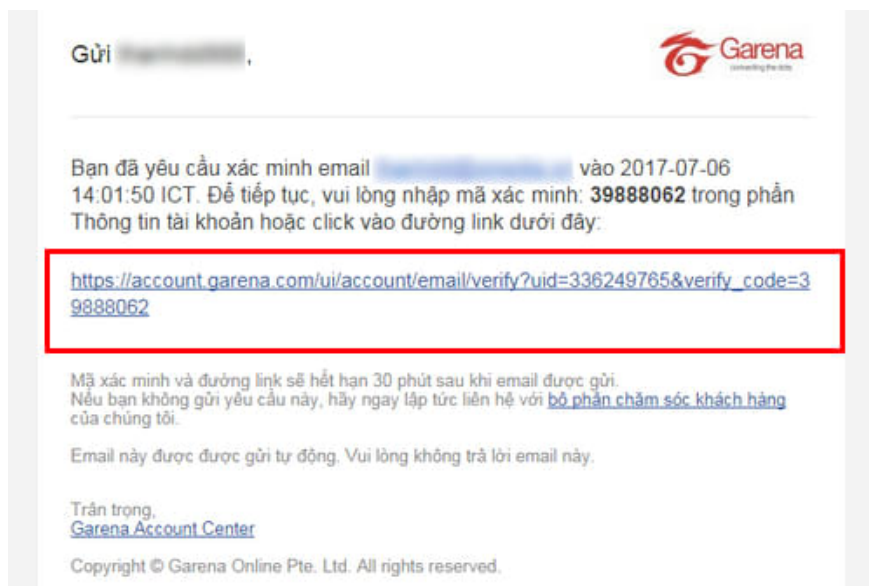

- **Username:** The username must be 6 to 15 characters long.
- **Password:** The password must be 8-16 characters long, contain at least one letter (az or AZ) and one number, and be different from the username.
- **Email:** Enter your correct email address in case you need to reset your password.
- **Phone number:** You can enter it or leave it blank.
- **Country:** Select your country/region.

Step 4: Once the account registration process is complete, you will receive a notification similar to the image below. At this point, you can use your newly created Garena account to log into the system.

However, users should take one final step: confirming the email for their newly registered Garena account by accessing their inbox (the email address entered in step 3), finding the email from Garena, and clicking on the link to activate the new Garena account.

If you don't already have the software on your computer, please download and install Garena via the link provided by Taimienphi below (reference link included).

If you don't already have the Garena app on your computer, you can download and install it to log in to the platform. Once complete, you can quickly experience games like League of Legends, FIFA Online 4, or Arena of Valor.
