

# Quick review of Fitbit Alta HR health monitoring bracelet

Fitbit Alta HR is considered by most experts to be the most perfectly designed health monitoring bracelet, with high aesthetics like a jewelry that creates a new technology fashion style.

*Fitbit Alta HR is a well-known health bracelet from China, since its presence in Vietnam Fitbit Alta HR has quickly created its own stand. And so far this is the slimmest health monitoring device of the Fitbit brand.*

Fitbit Alta HR is rated by professionals as the most designed health monitoring bracelet, with high aesthetics that acts as a jewelry to create a new technology fashion style, bringing many choices from classic to dynamic, youthful with easy changing straps.

*Fitbit Alta HR is very popular.*

With its modest weight, Fitbit Alta HR always brings comfort to users when wearing equipment on hand all day. Fitbit Alta HR LED display is more compact than some other smart bracelets, but this does not affect its perfection, Fitbit Alta HR still presents enough content data and information for everyone to follow. The visibility on this touch screen is very good, the color is bright and the brightness is no problem. Operation as well as sensitivity, speed of feedback is also very commendable.

*Fitbit Alta HR is suitable for both men and women.*

Overall evaluation of the feature, Fitbit Alta HR bracelet is a very good health monitoring device that helps you have a stable health, a good sleep and a reasonable diet and sleep.

Fitbit Alta HR usage is up to a week, but there are a number of ways to increase the usage time especially when the device is running low on battery power.
