

Quickly translate with Siri Shortcuts on iPhone

On the Siri Shortcuts iPhone there is a quick translation shortcut with many languages ??of your choice.

The new Siri Shortcuts application on iOS 12 has proven its versatility. By adding shortcuts for different functions to Siri Shortcuts, users will quickly use a certain tool right on the home screen, such as translating the language right on the iPhone screen.

Accordingly, on Siri Shortcuts, there is a Google Translate shortcut, which supports translating phrases, paragraphs via Clipboard, or manually entering. Users can choose any target language to translate from the original language. The following article will show you how to quickly translate on iPhone.

1. How to combine photos on iPhone with Siri Shortcuts
2. How to download YouTube videos to iPhone phones
3. How to turn off WiFi and Bluetooth completely from the iPhone main screen

Quick translation guide on iPhone

Step 1:

First click on the link below to open the Google Translate shortcut, press **Get shortcut** . Then the shortcut will ask you to display the top languages ??in the language selection section. Here we can **enter the language we want to translate** , then press **the Done button** .
