

Quickly type Facebook emoticons

Some emoticons that you can do quickly in Facebook and Facebook Messenger

When texting friends or posting status on Facebook, it is possible not to have emoticons and icons to make your conversation more lively. But not everyone remembers all of Facebook's emoticons.

In the app Facebook Messenger has up to 1500 different emoticons, emoji and icons to add a lively part to the user's conversation. If compared to Zalo and Skype, Facebook Messenger certainly has the added advantage. The only difficulty is that when entering Facebook, users can hardly know all the emoticons or icons to remember and post on Facebook only.

And then by then rummaging through the Facebook emoticon list to express feelings with friends and relatives, do you remember the old days when Yahoo chat, most users used characters to create emoticon. If you can't remember, you can refer to a few characters below to use during chat with friends.

1. How to display 50 emoji is often used on iPhone
2. How to drop airplane emoticons on Facebook
3. How to save and share Animoji on iPhone, iPad
