

Realme Band: 10-day battery life, no-charge battery charger

The Realme Band is equipped with a 0.96-inch screen with a resolution of 160x80 pixels, capable of displaying about 64 letters and supports touch operations.

Besides the Realme 6 / Realme 6 Pro duo, Realme also launched its first smartband at an event just held in India.

The Realme Band is equipped with a 0.96-inch screen with a resolution of 160x80 pixels, capable of displaying about 64 letters and supports touch operations.

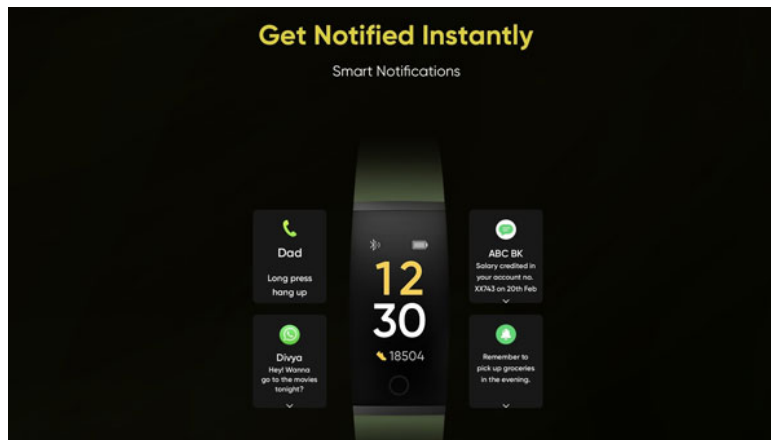

Realme Band has a built-in LinkSmart app to display notifications and content from internal apps like SMS, Facebook, Messenger, Twitter, TikTok, WhatsApp and Instagram.

Every time there is a notification, the icon of the application will also make it easier for users to identify.

Realme Band is available with 5 different watch faces for users to choose. Through updates, new watch faces will also be added. The Realme Band is water / dust resistant according to IP68 standard.

The Realme Band is equipped with a USB-A port at the bottom of the strap, allowing it to be plugged directly into the charging port without the need for any cables. It has a battery capacity of 90mAh and is advertised to bring 10 days of use.

Realme Band supports a number of health and sports tracking features such as sleep tracking, real-time heart rate measurement (real-time), prompting users to drink and move, counting steps, baseball, yoga , walk, climb, cycle, spin and exercise. All data will be transferred to the application on the smartphone.

Realme Band is expected to go on sale on March 9, in India, for INR 1499
