After giving FO4's route (FIFA Online 4), NPH FIFA Online Garena has issued a notice of compensation and account conversion for gamers from FIFA Online 3 to FIFA Online 4 in Vietnam and Thailand when This game started out.

So, how to perform the conversion of account from FIFA Online 3 to FIFA Online 4?

Coaches need to register to switch accounts with the system to update the system. Then, the entire team value and EP in FO3 will be completely converted to a special type of point in FO4 called EP point. This currency will be used to purchase items at FO4's exclusive web shop.

FIFA Online 3 coaches need to pay attention and register early because the conversion of EP points will only be opened for a certain period of time from the notice.

## Regulations on conversion level EP Point:

**Number of EP points = total quantity EP = Total value of all players in the coach line 1 + Total value of all players in the coach lineup 2 + The number of EP remaining in the account.**

For example, a coach has 50 billion EP, the first line is worth 100 billion EP, the second line costs 50 billion EP. So when you switch to FO4 you will have 200 billion EP points.

Note:

Some EPs still appear in FO3 and cannot be converted to EP points if:

1. The player is hanging on the Techmart, the player has sold but has not received the EP yet.
2. EP packages are not opened.
3. The player card has not yet opened.
4. Coach cards.
5. EP in the complex.
6. Items in the complex.
7. Other unused items (experience cards, simulated cards .).

In order to avoid fraudulent use of the game to profit, the coaches should pay attention to the information on the <https://www.facebook.com/FiFaOnlinePro/> fanpage, official FO4 homepage.
