With today's gaming industry, you can play hundreds of games on computers and smartphones. Every month there are dozens of new games delivered, but have you ever been nostalgic to classic games?

To play such games, you often have to simulate a gaming machine to be able to play most games from the video game system on an Android device or PC, but this job requires technology and effort. If you don't want or can't set up a gaming device, you can download some of your favorite retro games and play it right on your phone. This article will introduce you to the list of 7 free classic classic games from the 80s and 90s.

## 1. Super Mario Run

The first game on the list to introduce to you is a game based on the legendary Super Mario Bros. It's hard to find a player who doesn't have a 'feel' for a series of games, and it's no surprise to say this game has changed the world.

There are a lot of copycat games on Android trying to give you a Mario-like experience, but most of these games are still far from legendary. Unlike copycat games, Super Mario Run brings many similarities to this super ancient classic game on your mobile phone. This game is free, there are many different tables and levels of challenges. Are you ready to rescue Princess Toadstool? Please download this game right on your Android or iOS phone.
