

Resident Evil Village owns the scariest horror scene in 2021

If gamers have ever played through the Resident Evil Village game, they will surely remember the extremely scary scenes in the game.

Although there are not many horror games that receive high reviews in 2021, Resident Evil Village is an exception when it receives a series of nominations and different awards. Capcom has paid great attention to the plot, character design and gameplay to be able to create a horror masterpiece of 2021.

Resident Evil Village also gives gamers an extremely seductive Lady Dimitrescu with a hot shape, leaving an impression in the hearts of gamers who have completed the game. As a horror game, Resident Evil Village is also indispensable for extremely scary scenes, but not cheap jumpscare scenes but monsters that will make players shiver every time they encounter them.

The following will be one of the scariest scenes in Resident Evil Village. While our main character Ethan is groping for the exit in an area with no lights, he must find a way to escape from a creature with a hideous appearance and strange sounds that it makes. make players run and get goosebumps.

Resident Evil Village is the sequel to the events that took place in Biohazard and the player will continue to play the main character Ethan Winters in the journey to find the whereabouts of his daughter. Players will have to face a variety of different monsters in the game and most of them have strange and scary shapes.
