On the back of the device, a cluster of 4 cameras (3 cameras at the top and 1 separate at the bottom) are placed vertically. The difference between Mi 10 and Mi 10 Pro is in the rear camera cluster. In addition to 4 rear cameras like Mi 10, Mi 10 Pro is also equipped with a sensor placed between the 2nd and 3rd camera.

The smartphone duo is equipped with LPDDR5 RAM, UFS 3.0 flash memory storage. Mi 10 only supports 30W fast charger and Mi 10 Pro can support 66W fast charging. Both smartphones support the latest wifi 6 standard.
