

# Revealing the actual image of Xiaomi Mi 10 Explorer Edition with a transparent back

Previously, Xiaomi also launched special versions Mi 8 Explorer Edition and Mi 9 Explorer Edition.

Xiaomi has just launched the Mi 10 and Mi 10 Pro duo, with lots of notable high-end features. However, there still seems to be something missing, which is Explorer Edition. Previously, Xiaomi also launched special versions Mi 8 Explorer Edition and Mi 9 Explorer Edition.

Also not to be expected, Xiaomi has recently revealed the first images of the Mi 10 Explorer Edition with a transparent back. Looking at the rear camera assembly, it can be predicted that Mi 10 Explorer Edition will be a variant of Mi 10.

The transparent back design allows you to see the camera assembly, flash unit, battery and wireless charging coil clearly. It is possible to see the whole motherboard coating with heat sink graphite. There is also a huge Xiaomi text printed on the back.

The Mi 10 Explorer Edition will have the same configuration as the Mi 10, with a 6.67-inch 90Hz AMOLED screen, Snapdragon 865 chip, 8GB of RAM, 5G support, a 4,780 mAh battery. The rear camera cluster includes a 108MP main sensor, a 13MP ultra wide-angle camera, a 2MP macro camera, and a 2MP depth sensor.
