Sound

The sound effects in the game Lien Quan Mobile are also given the most attention. Sound design suitable for each skill in competition. The sound of collisions when fighting, knocking down towers or being finished off is vivid, realistic and gives a feeling of excitement.

Lien Quan Mobile gaming configuration

To be able to experience Lien Quan Mobile in the smoothest way, your phone needs to meet the following configuration:

Android

For the Android operating system, users need to meet the device model with a 4-core processor. Furthermore, the clock speed must reach 1.2 Ghz or higher. The minimum RAM memory that the device needs to meet is 1GB.

The device's operating system must be at 4.0.3 or higher. Minimum free space on the device is 2GB.

iOS

With iOS operating system, your device should be iPhone 5 or higher. The best operating system needs to meet the criteria of iOS 7 or higher. The free space of the device also needs to be at least 2GB.

When playing on devices with the iOS operating system platform, users will find that the game configuration is more stable. With only an iPhone 5S or 6S you can play this game to your heart's content.

Note: The configurations mentioned above are all minimum levels. In some conditions, you will find the game lagging. These are times when there are multiple players or a lot of visual and audio effects need to be used. Therefore, the higher the configuration of the device, the better the game.

Epilogue

The attraction of the game Lien Quan Mobile over the years has not diminished. This is enough to prove that the game was released with careful investment and gives players many great experiences. If you haven't tried it yet, download it and experience it now.
