2. Effective use
3. Price

Compact design

My first impression of the device is the extremely compact design.

Yes, the first words that customers say about Panasonic's nose trimmer are **small** and **compact** . Weighing in at only **160 grams** and measuring only **190x240x270 mm** , this machine is really easy to hold on hand to handle and extremely convenient to carry on business or travel.

Panasonic PAMT-ER-GN30-K453 nose hair trimmer has a compact, compact grip.

Although small, thanks to the circular cylinder design, it is very good to hold hands, not to fall down.

PAMT-ER-GN30-K453 also has a very elegant appearance, suitable for the eyebrows thanks to the main color scheme of silver and black, which is pressed with a little blue color so it still looks very outstanding.

Trimming fast, comfortable

The first time I used it, I was not very familiar with it and I felt a little encumbered, unfamiliar with my hand as usual or using scissors. But for the third time, I felt very comfortable because of the fast, neat, painless pruning and I regret not using this product sooner.

Because it is a machine, the biggest advantage of PAMT-ER-GN30-K453 compared to scissors or tweezers is that the operation is fully automatic and pruning much faster.

This nose hair cutting machine has a cylindrical cutter head designed with openings so it is very flexible, cleaning nose hair in different directions thoroughly. Operating under a mild vibration mechanism, the machine creates comfort for users. Furthermore, the outside of the cutting head has a protective frame, ensuring that the user does not cut too much, avoiding the delicate mucous areas of the affected nose.

Panasonic PAMT-ER-GN30-K453 nose hair trimmer comes with a dedicated cleaning brush.

Cheap

I bought this product only took over 300 thousand, but I used it too!

Currently on the market there are quite a number of different nose hair trimmers, prices can range from 200 thousand dong to several million dong.

With the PAMT-ER-GN30-K453 machine from the Japanese Panasonic brand and the convenience of using it, the machine evaluates that this machine has a very 'love' price, only **335,000 dong. (VAT included)** .

Panasonic PAMT-ER-GN30-K453 nose hair trimmer uses batteries and hygienic caps.

It uses 1 AA Alkaline battery rather than a rechargeable battery, so there's no need to worry about charging. This battery is also very easy to buy, but each time it **uses up to 5 months** so it is extremely cost-effective.

This machine is also used to trim the ears and eyebrows, so it is also suitable for girls.

I will definitely recommend to my brothers in the same room and buy one more for my father.
