Evaluate the Philips AT600 shaver

When choosing to buy a shaver, what do you most care about? Quality, shaving ability, price, design or brand? All are important. In this article, Quantrimang will help you evaluate the point-to-point details of the Philips AT600 shaver to see if this product is worth buying!

Reference : Experience helps you choose to buy the best shaver

Please refer to the video Review Philips AT7600 shaver below:

Impressive design

The first is about design. Speaking of Philips shavers, you can be assured that all products of this brand are beautiful and luxurious. Philips AT600 has a slim design with stylish blue and black colors that will surely suit the gentleman. Compact design, anti-slip handle, easy to grip makes it easy to manipulate.

100% water resistance thanks to Aquatec sealing head

Aquatec head design on Philips AT600 shaver makes it 100% water resistant. You can also easily remove it for cleaning, easy to wash with water after each use. The Philips AquaTouch AT600 is a shaver capable of drying and wet shaving. Water resistant is good with IPX7 standard and you can comfortably shave when bathing, use with shaving foam to bring the most comfortable feeling to your face.

In addition, the product also has excellent water and hand-holding features, so when you finish using it, you can easily clean the machine under clean water.

CloseCut's sharp, durable blade

This Philips AT600 shaver is only equipped with two rotating blades. But really, with 2 blades, this is still a very good product. The blade of the AT600 is exactly the same as the PQ217 and PQ206 series with 2 rotating blades, the CloseCut design - Philips technology that helps the blade embrace the face and delivers outstanding results. This design allows the blade to stick to every corner of the face, providing a clean and comfortable feeling.

Affordable price

Compared to AT750, AT600 is still cheaper, about **869,000 VND** (reference price at **META.vn**). This price is classified into mid-range products, not too cheap nor too expensive. Quantrimang advises you not to go for cheap shavers because its quality will definitely disappoint you. At this price, it can be said that Philips AT600 is quite OK product. You should choose.

Handy wireless rechargeable battery

Philips AT600 shaver uses charger cord. Therefore, it will be very convenient for you to bring with you when traveling or working. The device is fully charged within 10 hours and used continuously for more than 30 minutes (according to the number of shaves, it is equivalent to 10 shaves). When the battery is low, the LED on the device will light to signal.

Warranty

Using a Philips shaver, you can be completely assured! All Philips shavers have a 2-year global warranty and can be adjusted to suit every voltage level.

Summary:

Therefore, with the above assessments, we can see that Philips AT600 is a product worth choosing with the following criteria: good price, good quality and convenience. You will surely be very pleased when choosing this product.
