

Review SSD Western Digital Green 240GB

Western Digital Green's low-cost SSD segment has a Western Digital Green 120/240 / 480GB product line. In this article we will try the Western Digital Green 240GB product experience.

Western Digital (WD) is a manufacturer and researcher of data storage devices and one of the largest hard drive manufacturing companies in the world and a big name in the industry. electronic. Western Digital's most popular products in Vietnam are HDD Blue hard drives, in previous computer configurations we could easily meet them. With today's SSD era, Western Digital products are also starting to flood the market. Western Digital Green's low-cost SSD segment has a Western Digital Green 120/240 / 480GB product line. In this article we will try the Western Digital Green 240GB product experience.

1. Product photos

Although Western Digital Green 240 SSD is very small in size, it is packed in a much larger box and is fully covered with shock-proof bubble plastic.

Western Digital Green 240 has a simple design with dominant black tones and parameters specified on the box of the product. Here we can quickly track information such as: Reading speed up to 545MB / s, 3-year warranty.

MemoryZone's Western Digital Green 240 SSD is distributed by SPC (Vinh Xuan Computer), so we do not have to worry about counterfeit and pirated products.

On the back of the product, we will have more information related to Serial, Model, Production time, . Western Digital Green 240GB SSD product is 2.5inch suitable for all laptops and case PCs.

2. Product performance

PSU

Seasonic Focus Plus 850W FX-850 - 80 Plus Gold

RAM

Ram PC G.SKILL Trident Z full length RGB DDR4 32GB Bus 3000 Black CL16 XMP (Kit 16GB x 2) F4-3000C16D-32GTZR

SSD

1. SSD Samsung 970 EVO Plus 500GB M2 2280 MZ-V7S500BW
2. SSD Western Digital Green 240GB

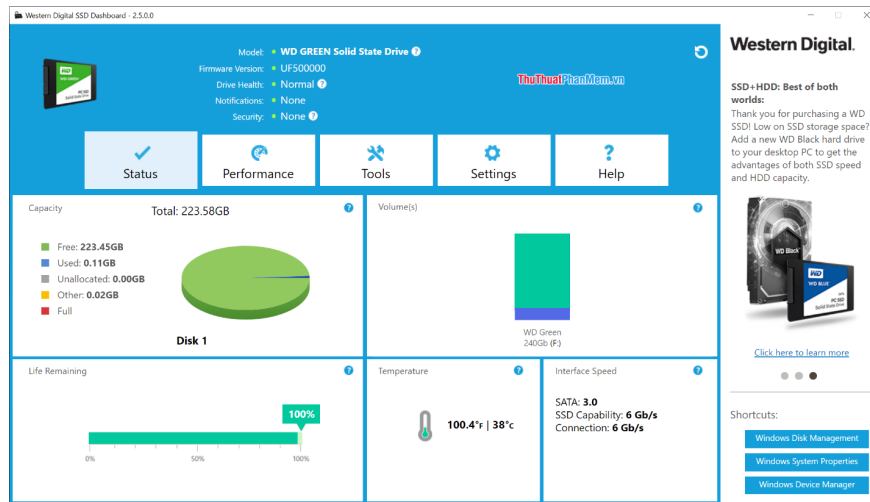

VGA

MSI RTX 2060 GAMING Z 6G

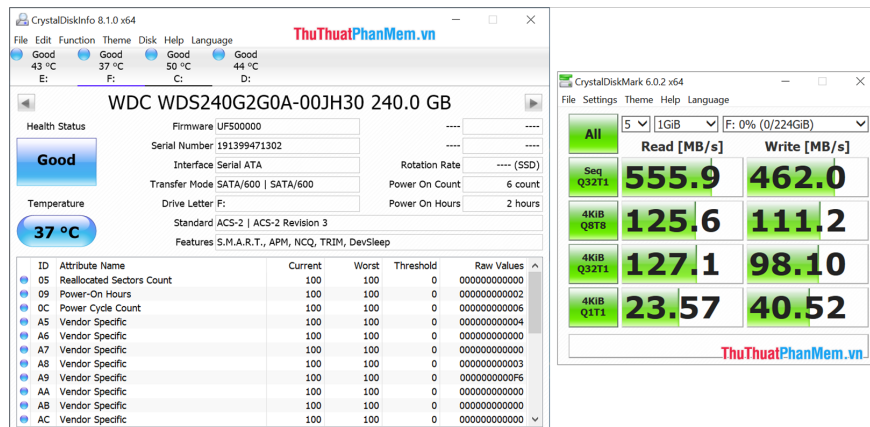

Radiators

NZXT Kraken X62 RGB

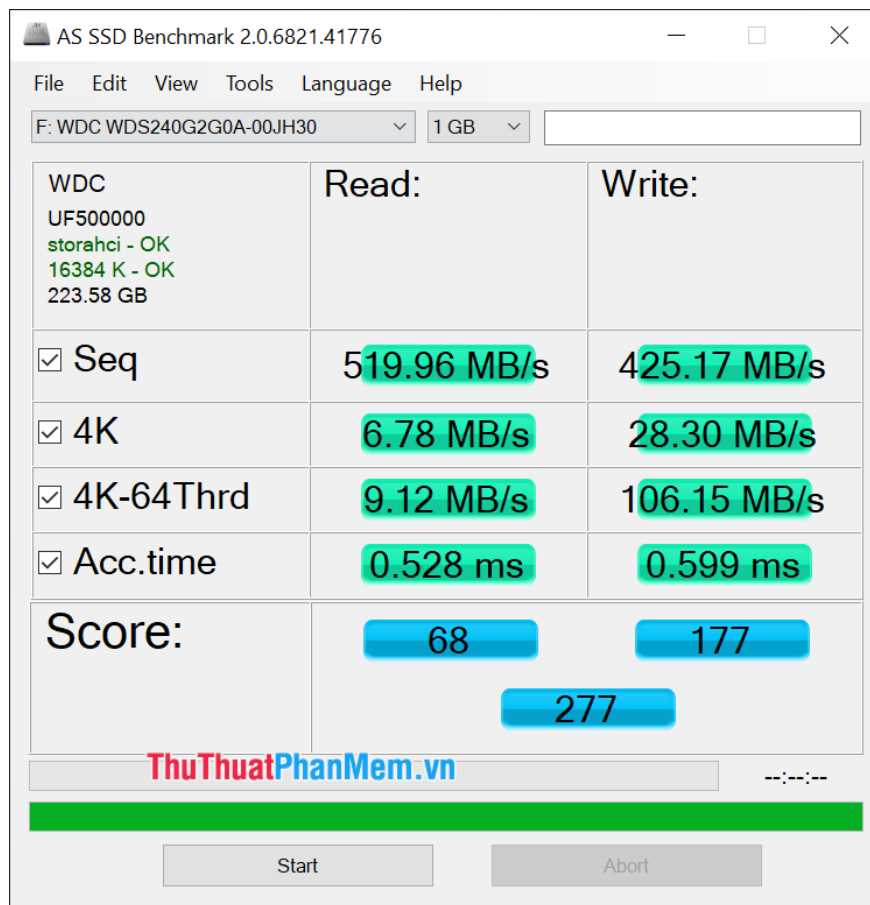

First, we try testing with Western Digital SSD Dashboard software. On this software we can monitor SSD Health, update Firmware for SSD, . This is a completely new product, so Health (Life Remaining) reaches the highest level of 100%.

Next, we will test the performance of Western Digital Green 240GB SSD using Crystal Disk Info and Crystal Disk Mark software. In Crystal Disk Mark software, Western Digital Green 240GB SSD yielded quite impressive results when the read speed reaches 555.9 MB / s and the write speed is 462 MB / s. However, the 4KiB Q1T1 read speed of the product is slightly lower than competitors in the same segment.

With AS SSD BenchMark software, the results are quite similar to Crystal Disk Mark, not much difference.

3. Evaluation

Western Digital Green 240GB SSD has high performance in the budget segment. With reading speed of about 555MB / s, it provides high speed for users. In addition, the company also has its own software development so that users can update FirmWere and check the health of SSDs very smoothly. Warranty of the product up to 3 years 1 for 1 very comfortable for the user.

Western Digital Green 240GB SSD is being sold by MemoryZone for about 700k, if calculated, we lose about 2,900 VND / 1GB of data, this is a relatively cheap price and consistent with the current time. With the experience that Western Digital Green 240GB SSD users will be hard to complain about.
